Did you know that there is a special kind of cactus called the Saguaro? Let's learn more about it and how it survives!

What is a Saguaro Cactus?

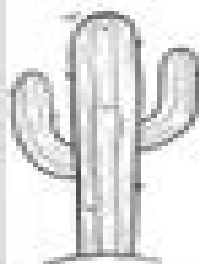

The Saguaro cactus is a big, columnar cactus that lives in the desert. It is the only cactus with arms reaching up to the sky. These arms can grow really, really tall – some can be as tall as a person!

Where Do They Grow?

Saguaro cacti live in the hot and arid desert areas called the Sonora. You can find a special desert called the Sonoran Desert which is in parts of Arizona, California, Mexico. The Saguaro cactus loves the warm weather and the bright sunlight.

How Do They Survive?

Saguaro cacti use the holes for water in the desert. They have a special way to store water, and when it rains, they can take in the water and store it for a long time. They also have a special way to keep their arms from getting too heavy. They can grow in the desert and survive during the scorching day and cold nights in the desert. It's the best thing the Saguaro cactus can do in its neighborhood!

Living Things

Living in the desert can be tough because there isn't a lot of water. The Saguaro cactus is very smart – it can store water in its body. When it rains, the water soaks up the ground and the cactus can drink it. It can also store water when it rains. That's how the Saguaro cactus can live in the desert.

In conclusion, the Saguaro cactus is an amazing plant that lives in the desert and grows really tall. It provides a home for animals and is a great source of water. Now you know about Saguaro, remember the tall and mighty Saguaro!

In *Teaching Globally: Reading the World Through Literature*, a community of educators shows us how to use global children's literature to help students explore their own cultural identities. Edited by Kathy Short, Deanna Day, and Jean Schroeder, this book explains why global curriculum is important and how you can make space for it within district and state school mandates. *Teaching Globally* is built around a curriculum framework developed by Short and can help teachers integrate a global focus into existing literacy and social studies curricula, evaluate global resources, guide students as they investigate cross-cultural issues, and create classroom activities with an intercultural perspective. Filled with vignettes from K-8 urban, suburban, and rural schools that describe successes and struggles, *Teaching Globally* aims to integrate global literature into classrooms and challenge students to understand and accept those different from themselves. The book also includes extensive lists of recommendations, websites, professional books, and an appendix of global text sets as mentioned by the authors.
