## **The Next Step The Realities Of Funding A Startup:**

*The Next Step* Luni Libes, 2016-09-02 Nine out of every ten startups will fail. Want to avoid their mistakes and become part of the 10% that succeed? THE NEXT STEP is the first series to take entrepreneurs step by step through the process from raw idea to operational startup. Each step includes a set of key questions designed to help you build a business plan and pitches for potential investors and customers. Book 5, *The Realities of Funding a Startup*, covers the whole spectrum of funding options from bootstrapping to crowd funding to angels and venture capital. The book also provides readers with an understanding of what makes investors invest and it covers what investors expect after an investment has been closed. The realities of startup funding are not always what entrepreneurs expect or would like them to be, and this book helps first-time entrepreneurs better understand the complexities of raising startup funding. Whether you're a seasoned professional looking to make a change, a new college graduate with a big idea, or a small business owner in need of more structure, this must-read series from serial entrepreneur Luni Libes will help make your idea a profitable reality. **The Next Step** Michael

Libes, 2015-01-07 How do you raise money for your startup? How do you find and talk to Angel investors and venture capitalists? What are your options? Step beyond the hype and learn the realities of funding your startup. [Silicon Valley: Planet Startup](#) Peter Ester, Arne Maas, 2015-10-01 For decades now Silicon Valley has been the home of the future. It's the birthplace of the world's most successful high-tech companies including Apple, Yahoo, Google, Facebook, Twitter, and many more. So what's the secret? What is it about Silicon Valley that fosters entrepreneurship and innovation? With *Silicon Valley: Planet Startup*, Peter Ester and Arne Maas argue that the answer lies in Silicon Valley's culture, a corporate culture that values risk-taking, creativity, invention, and sharing. Through extensive interviews with Dutch entrepreneurs working in the area, Ester and Maas show that Silicon Valley is, above all, a mind-set, a belief in thinking with passion and ambition far beyond the here and now. Scholars and business people and budding entrepreneurs alike are sure to find both inspiration and illumination in the stories and analyses Ester and Maas have assembled here. **The Legends of a Startup Guy** Prachi

Garg, 2019 Ganesha is jovial, intelligent, and the youngest in the family. A foodie by heart and laid-back by nature, he always looked for ways to make life easier. Despite being born to the all-powerful Shiva and Parvati, with Uncle Vishnu and aunts Lakshmi and Saraswati to back him at every point in life, he has to battle through many ups and downs to establish his individual identity, just like his accomplished brother Skanda. Under layers of perfection, benevolence, and jovial extravagance was a young boy battling to be found for who he really was. *The Legends of a Startup Guy* is a tale of someone who was born with a silver spoon and yet decided to write his own destiny on his own terms and to bring meaning to his existence out of the shadows of his lineage. It is the story of how an entrepreneur is born, the story of his challenges and his actions to sail through them carefully interwoven with stories from the Hindu mythology to bring to the table the wisdom of the gods.
