The Measure Of Justice:

Thinking the Poetic Measure of Justice Charles Bambach, 2013-05-21 What is the measure of ethics What is the measure of justice And how do we come to measure the immeasurability of these questions Thinking the Poetic Measure of Justice situates the problem of justice in the interdisciplinary space between philosophy and poetry in an effort to explore the sources of ethical life in a new way Charles Bambach engages the works of two philosophical poets who stand as the bookends of modernity Friedrich Hölderlin 1770 1843 and Paul Celan 1920 1970 offering close textual readings of poems from each that define and express some of the crucial problems of German philosophical thought in the twentieth century tensions between the native and the foreign the proper and the strange the self and the other At the center of this philosophical conversation between Hölderlin and Celan Bambach places the work of Martin Heidegger to rethink the question of justice in a nonlegal nonmoral register by understanding it in terms of poetic measure Focusing on Hölderlin's and Heidegger's readings of pre Socratic philosophy and Greek tragedy as well as on Celan's reading of Kabbalah he frames the problem of poetic justice against the trauma of German destruction in the twentieth century *Taking the Measure of Work* Dail L Fields, 2002-05-22 It is well well done I will indeed recommend it this type of work has been long needed in our field Robert J Vandenberg University of Georgia Organizational researchers and managers have never had a single easy to use resource for validated measures often relying on a selection of journal articles or improvised solutions to meet immediate needs Taking the Measure of Work A Guide to Validated Scales for Organizational Research and Diagnosis provides researchers consultants managers and organizational development specialists validated and reliable ways to measure how employees view their work and their organization Whether preparing questionnaires or interviews for an employee survey organizational assessment dissertation or research program this book guides users to a summary level understanding of each topic area the measurement issues in the area and a selection of measures to choose from The measures cover the areas of Job Satisfaction Organizational Commitment Job Characteristics Job Stress Job Roles Organizational Justice Work Family Conflict Person Organization Fit Work Behaviors Work Values About the Author Dail L Fields Ph D Georgia Tech 1994 is Associate Professor at the Regent University School of Business His research interests include measurement of employee perspectives on work cross cultural management human resource management strategies and leadership and values in organizations He is a member of the Academy of Management and the Academy of International Business Prior to beginning an academic career in 1994 he was a management executive with MCI Communications Corp and a management consultant with Touche Ross Co Department of Justice United States. General Accounting Office, 2001 *The Transformation of Property Regimes and Transitional Justice in Central Eastern Europe* Liviu Damşa, 2017-01-03 This volume examines the property transformations in post communist Central Eastern Europe CEE and focuses on the role of restitution and privatisation in such transformations It argues that the theorisation of restitution in post communist CEE is incomplete in the

transitional justice scholarship and in the literature on correction of historical wrongs The book also argues that for a more complete theorisation of post communist restitution the transformations of property in post communist societies ought to be studied in a more holistic way The main legal vehicles used for such transformations privatisation and restitution should not be studied separately and in abstract but in their reciprocal relationship and in connection to the dimension of justice which each could achieve Finally the book integrates privatisation in a theory of post communist transformation of property

Measure for Measure Oliver O'Donovan, 1977 **The Legal Reasoning of the Court of Justice of the EU** Gunnar Beck, 2013-01-21 The Court of Justice of the European Union has often been characterised both as a motor of integration and a judicial law maker To what extent is this a fair description of the Court's jurisprudence over more than half a century The book is divided into two parts Part one develops a new heuristic theory of legal reasoning which argues that legal uncertainty is a pervasive and inescapable feature of primary legal material and judicial reasoning alike which has its origin in a combination of linguistic vagueness value pluralism and rule instability associated with precedent Part two examines the jurisprudence of the Court of Justice of the EU against this theoretical framework The author demonstrates that the ECJ's interpretative reasoning is best understood in terms of a tripartite approach whereby the Court justifies its decisions in terms of the cumulative weight of purposive systemic and literal arguments That approach is more in line with orthodox legal reasoning in other legal systems than is commonly acknowledged and differs from the approach of other higher especially constitutional courts more in degree than in kind It nevertheless leaves the Court considerable discretion in determining the relative weight and ranking of the various interpretative criteria from one case to another The Court's exercise of its discretion is best understood in terms of the constraints imposed by the accepted justificatory discourse and certain extra legal steadying factors of legal reasoning which include a range of political factors such as sensitivity to Member States interests political fashion and deference to the EU legislator In conclusion the Court of Justice of the EU has used the flexibility inherent in its interpretative approach and the choice it usually enjoys in determining the relative weight and order of the interpretative criteria at its disposal to resolve legal uncertainty in the EU primary legal materials in a broadly communautaire fashion subject however to i regard to the political constitutional and budgetary sensitivities of Member States ii depending on the constraints and extent of interpretative manoeuvre afforded by the degree of linguistic vagueness of the provisions in question the relative status of and degree of potential conflict between the applicable norms and the range and clarity of the interpretative topoi available to resolve first order legal uncertainty and finally iii bearing in mind the largely unpredictable personal element in all adjudication Only in exceptional cases which the Court perceives to go to the heart of the integration process and threaten its *acquis communautaire* is the Court of Justice likely not to feel constrained by either the wording of the norms in issue or by the ordinary conventions of interpretative argumentation and to adopt a strongly communautaire position if need be in disregard of what the written laws says but subject to the proviso that the

Court is assured of the express or tacit approval or acquiescence of national governments and courts

The Justice of the Peace William Law Murfree, 1886 **On Rawls, Development and Global Justice** H. Williams, 2011-03-08

John Rawls text The Law of Peoples has inspired extensive scholarly debate in the field of international political theory since its publication in 1999 Responding to the arguments of cosmopolitan theorists and Amartya Sen s recent critique this new work presents a fresh appraisal of the debate and argues that Rawls offers a persuasive and prescient moral perspective on issues of global poverty and development By elaborating one of Rawls core ideas the duty of assistance the book offers a unique theoretical response to the ideal of global justice The duty is presented as a far reaching principle of justice one that advocates increasing the state capability of burdened societies and aims to compel the most powerful states to reform international structures and provide aid in a constructive and culturally sensitive manner The aim of assistance is the strengthening of democratic or decent indigenous institutions and the promotion of the freedom of peoples On Rawls Development and Global Justice is an original contribution to current debates on international redistribution democracy promotion and global poverty
