The Mystery Of The Cross Exploring Christianity Through Physics:

The Mystery of the Cross Rosemary Holgate, 2014 The author explains the profound relationship between heaven and earth by using the principals of physics to intelligently reason the mystery of the cross and the path created from earth to heaven for the saving of souls This fascinating book has been written to demonstrate how physics as part of God s creation mirrors the equally complex attributes of the spiritual world we live in but rarely perceive For instance the mathematical formula $qp pq$ explains how the inner world and the outer world unfold together The book helps the reader to rationalize many spiritual principals the Bible teaches using basic scientific reasoning The two main forces of the universe are light and darkness they are the two main forces in a spiritual sense and also in an outer or literal sense As an example there is a parallel between the spiritual and visible worlds Sunset reminds one of the end of life which is merely a passage from life to heaven when saved Negative and positive forces in physics reflect negative and positive forces in the spiritual realm The physics behind these principals gives us a glorious interpretation of God s creation and purpose for mankind

Exploring Theological Paradoxes Cyril Orji, 2022-08-31 This book focuses on the question of theological paradox exploring what it means and its place in theological method from a Christian perspective Just as paradoxes are unavoidable in logic and mathematics paradoxes are inevitable in religious and theological discourses The chapters in this volume examine a number of cases including the Red Heifer paradox the liar paradox and the paradox of omnipotence and attention is given to Christian doctrines such as the Trinity and the Incarnation Arguing for a renewed understanding and appreciation of the role of paradox this study will be of interest to scholars of theology and the philosophy of religion

Christianity: A Complete Introduction: Teach Yourself John Young, Greg Hoyland, 2016-07-14 An exciting engaging and intellectually serious book Dr Rowan Williams 104th Archbishop of Canterbury I think it s brilliant Bishop Stephen Cottrell How is it that a faith that began in 1st century Palestine with a handful of followers has become the largest movement the world has ever known Christianity A Complete Introduction traces the story of the Christian faith from sandals to cyberspace It describes the origins and key ideas of Christianity and gives an account of how it looks in the modern world Socially scientifically economically and politically Christianity today inhabits a very different world from that of Jesus of Nazareth and his early disciples Yet it seems to possess an inherent ability to survive and thrive in the face of great change It remains a compelling and powerful faith in the modern world with a rich and diverse heritage Whether you are preparing for an essay studying for an exam or simply want to expand your knowledge Christianity A Complete Introduction is your go to guide

Revelations of the Cross James Innell Packer, 2013 Collected writings on the Trinity Christ and the Holy Spirit In this collection of writings from one of the most well known theologians of the modern era Packer strongly defends Trinitarian theology and the uniqueness of Jesus Christ against contemporary challenges In so doing he deals with theological issues such as atonement justification and universalism He calls for believers to be serious about the Holy Spirit and his articles on this topic are

valuable examples of how to apply theological beliefs to controversial issues within the church The articles range from short devotional pieces published in church sponsored journals to opinion articles for popular journals like Christianity Today to major articles for scholarly journals Contents Foreword 1 The Trinity and the Gospel 2 On Covenant Theology 3 Jesus Christ the Lord 4 Jesus Christ the Only Saviour 5 The Lamb Upon His Throne 6 A Modern View of Jesus 7 The Uniqueness of Jesus Christ 8 What Did the Cross Achieve 9 Sacrifice and Satisfaction 10 Justification Introductory Essay 11 The Love of God Universal and Particular 12 Good Pagans and God s Kingdom 13 The Problem of Universalism Today 14 Evangelicals and the Way of Salvation 15 An Agenda for Theology 16 Shy Sovereign 17 On Being Serious About the Holy Spirit 18 The Spirit and His Work

Inner Christianity Richard Smoley, 2002-10-08 An eye opening introduction to the complex world of esoteric Christianity perfect for the general reader This guide to mystical and esoteric Christianity speaks from a nonsectarian point of view unearthing insights from the whole of the Christian tradition orthodox and heretical famous and obscure The esoteric tradition has traditionally searched for meanings that would yield a deeper inner knowledge of the divine While traditional Christianity draws a timeline from Adam s Fall to the Day of Judgment the esoteric often sees time as folding in on itself bringing every point to the here and now While the Church fought bitterly over dogma the esoteric borrowed freely from other traditions Kabbalah astrology and alchemy in their search for metaphors of inner truth Rather than basing his book around exponents of esoteric doctrine scholar Richard Smoley concentrates on the questions that are of interest to every searching Christian How can one attain direct spiritual experience What does the Fall really tell us about coming to terms with the world we live in Can we find salvation in everyday life How can we ascend spiritually through the various levels of existence What was Christ s true message to humankind From the Gospel of Thomas to A Course in Miracles from the Jesus Prayer to alchemy and Tarot from Origen to Dante to Jung Richard Smoley sheds the light of an alternative Christianity on these issues and more

Bulletin of the Atomic Scientists , 1959-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world

A Christian Theology of the Cross Allen George, 2010-07-29 A CHRISTIAN THEOLOGY OF THE CROSS presents three basic standards for discussing the subject and object God It underscores the connection between Gods approval of Abels offering and the establishment of the priesthood and names Genesis 4 7 as the foundation of the principal doctrines of Christian Salvation It stresses the importance of Christian freedom and argues that the doctrine of existentialism is rooted in Genesis 4 9b This book speaks directly to those who are spiritually hungry and thirsty for the Word of God in the twenty first century The reader will discover that the author is an analytical thinker George asserts that the ambiguities of Abels offering dont negate the concept of his priesthood He champions the belief that the doctrine of the universality of salvation is a crucial divide between Judaism and Christianity He insists that the Gospel demands that Christians renounce their hate and intolerance

Athene , 1964

The Oneness/otherness Mystery Sutapas Bhattacharya, 1999-01-01 this is a work about our very existence about Reality about the relationship between the individual personality and the cosmos in which that personality exists showing how the person is a microcosm a little part of the cosmos subtly reflecting his w

The Mystery Beyond Human Development George Farahat, 2020-06-29 This book will fascinate the reader as the author shares his own true story since his childbirth in Egypt his growth passions sufferings and hopes and that of many others he knew The book brings to light the relational character of the cosmos and all life it contains as a reflection of the Mystery of God who is Love Based on the historical development of thought and science as well as recent research the author argues that humanity is destined for the Second Coming of Christ the Alpha and Omega Based on the development of civilizations the book illustrates violence vengeance greed passion fear security collaboration love and success as examples from history of individuals as well as cultures The premise of the book is that humans by nature are relational Since early civilizations collaboration and reciprocity between tribes led to trade and thus learning developed in many centers But knowledge is not only intellectual Knowledge is completed in the love of the other which is pervasive in human thought and relations The conclusion proposes imitation of love the love shown in the life and teachings of Christ even if hard in order to live eternal life

Discovering the Other Cameron Harder, 2013-05-06 What is God's mission Simply put says theologian and field educator Cameron Harder God's mission is to form communities that reflect and embody the life of the Trinity Discovering the Other is an introduction to two tools that community builders have found helpful appreciative inquiry and asset mapping These tools help congregations see that all of life is saturated by the sacred and give them energy to begin living as if it were so Instead of asking What's wrong appreciative inquiry asks What's right Asset mapping asks What resources do you have personally that we could bring to our future together Out of these questions can arise a sense that every congregation is rich in history people and resources Ideas emerge as people inspired by the Spirit listen and talk to each other The leader's task is to facilitate coalesce and connect ideas to catalyze and stimulate the development of vision The creative connections lead to programs and projects that will enrich your congregation's mission But most importantly in the process they will engage you with others with their stories their hopes their gifts to build community This book looks for God not only through the lens of such tools but in the tools themselves It is an effort to understand how processes like appreciative inquiry and asset mapping reflect the character and community building style of the God whom Christians worship as Divine community

The God Who Saves David W. Congdon, 2016-09-08 Christian universalism has been explored in its biblical philosophical and historical dimensions For the first time The God Who Saves explores it in systematic theological perspective In doing so it also offers a fresh take on universal salvation one that is postmetaphysical existential and hermeneutically critical The result is a constructive account of soteriology that does justice to both the universal scope of divine grace and the historicity of human existence In The God Who Saves David W Congdon orients theology systematically around the New Testament witness to the apocalyptic

inbreaking of God's reign The result is a consistently soteriocentric theology Building on the insights of Rudolf Bultmann Ernst Kasemann Eberhard Jungel and J Louis Martyn he interprets the saving act of God as the eschatological event that crucifies the old cosmos in Christ Human beings participate in salvation through their unconscious existential cocrucifixion in which each person is interrupted by God and placed outside of himself or herself Both academically rigorous and pastorally sensitive The God Who Saves opens up new possibilities for understanding not only what salvation is but also who the God who brings about our salvation is Here is an interdisciplinary exercise in dogmatic theology for the twenty first century
