Richardson, 2002 When Spanish dictator Francisco Franco legalized internal immigration in 1947 he unwittingly inaugurated the greatest period of urban expansion and rural depopulation that Spain had known During the next two decades nearly four million citizens would move from Spain's traditional pueblos perdidos to overburdened urban metropolises Along with wooden trunks and baskets of chickens the immigrants or paletos as they were often called bore on their journey the weight of centuries of ideological meaning tied to the geographic regions they were traversing To abandon rural Spain had come to signify a rejection of manhood wealth Christian values and even Spanishness itself Paletos however innocent they may have appeared were not ideologically neutral In the coming decades the weight and complexity of the meanings behind immigration the country and the city would only grow as Spain advanced from economic under development social ignorance and political

reaction to full fledged participation in global economics and politics activities that would reshape what it meant to be an immigrant and paletos both within and across the geographic border that had traditionally defined the Spanish nation

Emigrant Dreams Immigrant Borders Migrants Transnational Encounters and Identity in Spain offers a new approach to the cultural history of contemporary Spain examining the ways in which Spain's own self conceptions are changing and multiplying in response to migrants from Latin America and Africa In the last twenty five years Spain has gone from being a country of net emigration to one in which immigrants make up nearly 12 percent of the population This rapid growth has made migrants increasingly visible in both mass media and in Spanish visual and literary culture This book examines the origins of media discourses on immigration and takes the analysis of contemporary Spanish culture as its primary framework while also drawing insights from sociology and history

Emigrant Dreams Immigrant Borders introduces readers to a wide range of recent films journals novels photography paintings and music to reconsider contemporary Spain through its varied encounters with migrants It follows the stages of the migrant's own journey beginning outside Spanish territory continuing across the border either at the barbed wire fences of Ceuta and Melilla or the waters of the Atlantic or the Strait of Gibraltar and then considers what happens to migrants after they arrive and settle in Spain Each chapter analyzes one of these stages in order to illustrate the complexity of contemporary Spanish identity This examination of Spanish culture shows how Spain is evolving into a new space of imagination one that can no longer be defined without the migrant a space in which there is no unified identity but rather a new self understanding is being born

Vega Durán both places Spain in a larger European context and draws attention to some of the features that from a comparative perspective make the Spanish case interesting and often unique She argues that Spain cannot be understood today outside the Transatlantic and Mediterranean spaces both real and imaginary where Spaniards and migrants meet

Emigrant Dreams Immigrant Borders offers a timely study of present day Spain and makes an original contribution to the vibrant debates about multiculturalism and nation formation that are taking
