The Obsidian Collection:

The Technology of Maya Civilization Zachary X. Hruby, Geoffrey E. Braswell, Oswaldo Chinchilla Mazariegos, 2014-10-14
The ancient Maya shaped their world with stone tools. Lithic artifacts helped create the cityscape and were central to warfare and hunting craft activities, cooking, and ritual performance. *The Technology of Maya Civilization* examines Maya lithic artefacts made of chert, obsidian, silicified limestone, and jade to explore the relationship between ancient civilizations and natural resources. The volume presents case studies of archaeological sites in Guatemala, Mexico, Belize, and Honduras. The analysis draws on innovative anthropological theory to argue that stone artefacts were not merely cultural products but tools that reproduced, modified, and created the fabric of society.

The Archaeology and History of Pueblo San Marcos Ann F. Ramenofsky, Kari L. Schleher, 2017-11-15
San Marcos, one of the largest late prehistoric Pueblo settlements along the Rio Grande, was a significant social, political, and economic hub both before Spanish colonization and through the Pueblo Revolt of 1680. This volume provides the definitive record of a decade of archaeological investigations at San Marcos, ancestral home to Kewa, formerly Santo Domingo, and Cochiti descendants. The contributors address archaeological and historical background, artifact analysis, and population history. They explore possible changes in Pueblo social organization, examine population changes during the occupation, and delineate aspects of Pueblo-Spanish interaction that occur with Spaniards' intrusion into the colony and especially the Galisteo Basin. Highlights include historical context, in-depth consideration of archaeological field and laboratory methods, compositional and stylistic analyses of the famed glaze-paint ceramics, analysis of flaked stone that includes obsidian hydration dating, and discussion of the beginnings of colonial metallurgy and protohistoric Pueblo population change.

Obsidian Across the Americas Gary M. Feinman, Danielle J. Riebe, 2022-12-08
This volume draws attention to recent obsidian studies in the Americas and acts as a reference for archaeologists and scholars interested in material culture and exchange. Moreover, it provides a wide range of case studies in obsidian characterization, material application, and theoretical interpretations in the Americas.

Lost Laborers in Colonial California Stephen W. Silliman, 2008-10-01
Native Americans who populated the various ranchos of Mexican California as laborers are people frequently lost to history. The rancho period was a critical time for California Indians, as many were drawn into labor pools for the flourishing ranchos following the 1834 dismantlement of the mission system, but they are practically absent from the documentary record and from popular histories. This study focuses on Rancho Petaluma, north of San Francisco Bay, a large livestock, agricultural, and manufacturing operation on which several hundred, perhaps as many as two thousand, Native Americans worked as field hands, cowboys, artisans, cooks, and servants. One of the largest ranchos in the region, it was owned from 1834 to 1857 by Mariano Guadalupe Vallejo, one of the most prominent political figures of Mexican California. While historians have studied Vallejo, few have considered the Native Americans he controlled, so we know little of what their lives were like or how they adjusted to the colonial labor regime. Because Vallejo's Petaluma Adobe is now a state historic park and

one of the most well protected rancho sites in California this site offers unparalleled opportunities to investigate nineteenth century rancho life via archaeology Using the Vallejo rancho as a case study Stephen Silliman examines this California rancho with a particular eye toward Native American participation Through the archaeological record tools and implements containers beads bone and shell artifacts food remains he reconstructs the daily practices of Native peoples at Rancho Petaluma and the labor relations that structured indigenous participation in and experience of rancho life This research enables him to expose the multi ethnic nature of colonialism counterbalancing popular misconceptions of Native Americans as either non participants in the ranchos or passive workers with little to contribute to history *Lost Laborers in Colonial California* draws on archaeological data material studies and archival research and meshes them with theoretical issues of labor gender and social practice to examine not only how colonial worlds controlled indigenous peoples and practices but also how Native Americans lived through and often resisted those impositions The book fills a gap in the regional archaeological and historical literature as it makes a unique contribution to colonial and contact period studies in the Spanish Mexican borderlands and beyond *Fanning the Sacred Flame* Brian D. Dillon, Matthew A. Boxt, 2012-03-15

Archeology and Volcanism in Central America Payson D. Sheets, 2014-07-03

Scientists have long speculated on the impact of extreme natural catastrophes on human societies Archeology and Volcanism in Central America provides dramatic evidence of the effects of several volcanic disasters on a major civilization of the Western Hemisphere that of the Maya During the past 2 000 years four volcanic eruptions have taken place in the Zapotitán Valley of southern El Salvador One the devastating eruption of Ilopango around A D 300 forced a major migration pushing the Mayan people north to the Yucatán Peninsula Although later eruptions did not have long range implications for cultural change one of the subsequent eruptions preserved the Cerén site a Mesoamerican Pompeii where the bodies of the villagers the palm thatched roofs of their houses the pots of food in their pantries even the corn plants in their fields were preserved with remarkable fidelity Throughout 1978 a multidisciplinary team of anthropologists archeologists geologists biologists and others sponsored by the University of Colorado's Protoclassic Project researched and excavated the results of volcanism in the Zapotitán Valley a key Mesoamerican site that contemporary political strife has since rendered inaccessible The result is an outstanding contribution to our understanding of the impact of volcanic eruptions on early Mayan civilization These investigations clearly demonstrate that the Maya inhabited this volcanically hazardous valley in order to reap the short term benefits that the volcanic ash produced fertile soil fine clays and obsidian deposits

Hunting and Fishing in the Neolithic and Eneolithic Selena Vitezovic, Christoforos Arampatzis, 2024-05-02 This volume contains

13 papers on hunting and fishing techniques weapons and prey in the area from Anatolia to the Gibraltar region Papers include specific case studies as well as syntheses of wider data sets and provide the latest methodological and theoretical perspectives on the role of hunting and fishing in early agricultural societies *Ceramics and Artifacts from Excavations in the Copan Residential Zone* Gordon Randolph Willey, 1994 This is the first of two volumes addressing the Harvard University excavations in an outlying residential zone of the Copan in Honduras The book offers detailed descriptions of ceramics and all other artifacts during 1976 1977 The materials pertain largely to the Late Classic Period Ceramics are presented according to the type variety system **Collecting Colonialism** Chris Gosden, Chantal Knowles, 2020-05-26 Colonialism has shaped the world we live in today and has often been studied at a global level but there is less understanding of how colonial relations operated locally This book takes twentieth century Papua New Guinea as its focus and charts the changes in colonial relationships as they were expressed through the flow of material culture Exploring the links between colonialism and material culture in general the authors focus on the particular insights that museum collections can provide into social relations Collections made by anthropologists in New Britain in the first half of the century are compared with recent fieldwork in the area to provide a particularly in depth picture of historical change Museum collections can reveal how people dealt with changes in the nature of community gender relations and notions of power through the shifting use of objects in ritual and exchange Objects photographs and archives bring to life both the individual characters of colonial New Britain and the longer term patterns of history Drawing on the related disciplines of archaeology linguistics history and anthropology the authors provide fresh insights into the complexities of colonial life In particular they show how social relationships among Melanesians whites and other communities helped to erode distinctions between colonizers and locals distinctions that have been maintained by scholars of colonialism in the past This book successfully combines a specific geographical focus with an interest in the broader questions that surround colonial relations historical change and the history of anthropology **Interpreting the Legacy of Women's Suffrage at Museums and Historic Sites** Page Harrington, 2021-09-11 Interpreting the Legacy of Women's Suffrage at Museums and Historic Sites is an invaluable guide for public historians and practitioners who wish to share an updated historic narrative that is inclusive of the full breadth of the movement including the pervasive bias and racism This book acknowledges the barriers faced by history practitioners from the difficulty in finding materials that document the political actions by women of color to our own reluctance to broach this disparity and then offers practical solutions and techniques for bringing about a larger shift in organizational culture To begin this book includes a chronological primer on the US women's suffrage movement and the events around the 50th 75th and finally the centennial of the ratification of the 19th Amendment that took place in 2020 Additionally four women's history practitioners share case studies from their work at the National Woman's Party the Frances Willard House and the General Federation of Women's Clubs Each organization is moving forward to confront the racist tactics or documented racism within

their own history The final case study written by Chick History showcases their multi year project to digitize and make available family and local history related to African American women s political history in Tennessee before 1930 The case studies can be used as models for best practices cautionary examples of lessons learned and can be replicated at sites of all sizes Lastly the book provides an expansive list of online resources as well as a discussion guide on the history of women s voting rights Interpreting the Legacy of Women s Suffrage at Museums and Historic Sites will be helpful to both practitioners and community organizations as they engage in public discussions or convene focus groups around the sensitive topics of bias and racism within the larger women s suffrage movement The Place of the Storehouses, Roosevelt Platform Mound Study Owen Lindauer,1996 **Murdle Jr.: Sleuths on the Loose** G.
