Elementary Education in English Periodicals, 1833-1880 Edwin Patrick Powell,2024-09-30 The nature and purpose of elementary education featured prominently in English periodicals throughout the nineteenth century This book s central argument is that the periodical press provided a unique cultural space for literary and intellectual contributions to sustained debates about education Furthermore political economic social religious literary and cultural developments converged with pivotal educational turning points featured in periodicals that affirmed the creative force of education However relatively

little scholarly attention has been given to periodicals as a medium for exploring the tension between competing educational ideas and practices in Victorian England This book therefore reassesses elementary education through the new literary perspectives of periodical culture *The Age of Innocence* Edith Wharton,1994 Countess Olenska separated from her European husband returns to old New York society She bears with her an independence and an awareness of life which stirs the educated sensitivity of Newland Archer engaged to be married to May Welland *Journey to the Centre of the Earth* Jules Verne,1996 Describes the discovery and exploration of a secret tunnel which leads through a volcano to the centre of the earth **Gothic Remains** Laurence Talairach,2019-10-01 This books aims to tackle the relationship between literature the Gothic and anatomical culture in depth research which has not been undertaken in great detail before Gothic Remains provides close readings of Gothic texts and the issue of dissection not previously done This study although dealing with death corpses and the Gothic like other studies offers a new analysis on the history of medicine and the part played by anatomy in medical education and practice *The Coat Route* Meg Lukens Noonan,2013-07-16 In today s world of fast fashion is there a place for a handcrafted 50 000 coat When journalist Meg Lukens Noonan learned of an unthinkable expensive entirely handcrafted overcoat that a fourth generation tailor had made for one of his longtime clients she set off on an adventure to understand its provenance and from that impulse unspooled rich and colorful stories about its components the centuries old bespoke industry and its traditions and the master craftsmen whose trade is an art form In *The Coat Route* Noonan pieces together the creation of the coat in question tracing its elements to their far flung sources from the remote mountains of Peru where villagers shear vicunas whose soft fleece is more coveted and rare than the finest cashmere to the fabulous Florentine headquarters of Stefano Ricci the world s greatest silk designer from the family owned French fabric house Dormeuil founded in 1842 which drapes kings presidents and movie stars to the 150 year old English button making firm that creates the ne plus ultra of fasteners out of Indian water buffalo horn and the workshop of the master hand engraver who makes the eighteen karat gold plaque that hangs inside the coat s collar We meet the dapper son in law of an Australian wine baron who commissions the coat s creation and we come to know John Cutler one of the top bespoke tailors in the world who works his magic with scissors and thread out of his Sydney shop redolent of cedar and English wool Featuring a cast of offbeat obsessed and wildly entertaining characters *The Coat Route* presents a rich tapestry of local masters individual artisans and family owned companies that have stood against the tide of mass consumerism As Noonan comes to realize these craftsmen some of whom find themselves on the brink of retirement with no obvious successors have increasing reason to believe that their way is the best way best for their customers best for the environment and best for the quality of life of all involved *The Coat Route* is a love song to things of lasting value Praise for *The Coat Route* A spirited tour of fashion history *The Coat Route* compels us to remember that behind every garment is a deep history and a pair of human hands whether those hands stitched the dress s hem or pulled a lever that stringed together that 30 must have jacket *The Wall Street Journal* Delightful

Fueling Freedom Stephen Moore,Kathleen Hartnett White,2016-05-23 Fossil fuel energy is the lifeblood of the modern world Before the Industrial Revolution humanity depended on burning wood and candle wax But with the ability to harness the energy in oil and other fossil fuels quality of life and capacity for progress increased exponentially Thanks to incredible innovations in the energy industry fossil fuels are as promising safe and clean an energy resource as has ever existed in history Yet highly politicized climate policies are pushing a grand scale shift to unreliable impractical incredibly expensive and far less efficient energy sources Today fossil fuel has become such a dirty word that even fossil fuel companies feel compelled to apologize for their products In Fueling Freedom energy experts Stephen Moore and Kathleen Hartnett White make an unapologetic case for fossil fuels turning around progressives protestations to prove that if fossil fuel energy is supplanted by green alternatives for political reasons humanity will take a giant step backwards and the planet will be less safe less clean and less free **Moll Flanders** Daniel Defoe,1993 Abandoned at birth and threatened with a life in service Defoe s young rebel sets her heart on independence One fatal seduction and five husbands later she resorts to a life of self supporting crime *The Best Short Stories* Rudyard Kipling,1997 This is a fascinating selection of Kipling s most famous short stories bringing together the very best of his work
