Shadow Force David Isenberg, 2008-12-30 From their limited use in China during World War II for example to their often clandestine use in Vietnam ferrying supplies before the war escalated in 1964 and 1965 when their role became more prominent and public private military contractors PMCs have played made essential contributions to the success and failures of the military and United States Today with an emphasis on force restructuring mandated by the Pentagon the role of PMCs and their impact on policy making decisions is at an all time peak This work analyzes that impact focusing specifically on PMCs in Iraq since the fall of Saddam Hussein in 2003 Isenberg dissects their responsibilities the friction that exists between contractors and military commanders problems of protocol and accountability as well as the problems of regulation and control that PMC companies create for domestic

politics Isenberg organizes his work thematically addressing all facets of PMCs in the current conflict from identifying who the most influential companies are and how they got to that point to the issues that the government military and contractors themselves face when they take the field He also analyzes the problem of command control and accountability It is no secret that PMCs have been the source of consternation and grief to American military commanders in the field As they work to establish more routine protocols in the field however questions are also being raised about the role of the contractors here at home The domestic political arena is perhaps the most crucial battleground on which the contractors must have success After all they make their corporate living off of taxpayer dollars and as such calls for regulation have resonated throughout Washington D C growing louder as the profile of PMCs increases during the current conflict

Policing and Crime Control in Post-apartheid South Africa Anne-Marie Singh, 2016-04-22 Once a marginal political issue crime control now occupies a central place on the social political and economic agenda of contemporary liberal democracies Nowhere more so than in post apartheid South Africa where the transition from apartheid rule to democratic rule was marked by a shift in concern from political to criminal violence In this book Anne Marie Singh offers a comprehensive account of policing transformations in post apartheid South Africa Her analysis of crime and mechanisms for its control is linked to an analysis of neo liberal policies providing the basis for a critique of existing analyses of liberal democratic governance Themes addressed in the book include the exercise of

coercive authority state and non state expertise in policing the rationally choosing criminal and the importance of developing an active and responsible citizenship Community Policing Dominique Wisler,Ihekwoaba D. Onwudiwe,2009-06-10

Community oriented policing COP is the ideology and policy model espoused in the mission statements of nearly all policing forces throughout the world However the COP philosophy is interpreted differently by different countries and police forces resulting in practices that may in fact run far afield of the community based themes of partnership Policing and Human Rights Amanda Dissel,Cheryl Frank,2012 **Policing Diversity** Andrew Faull,2008 The shift from apartheid to a constitutional democracy in South Africa brought with it a plethora of questions concerning ideas of nationhood citizenship and organisational transformation Integrally caught up in the revolution the South African Police Service SAPS faced transformative challenges on scales far larger than most other organisations in the country From being the strong arm of the oppressive elite it has had to restructure and rearticulate its function while simultaneously attempting to maintain law and order Like many other corporations and organisations the SAPS has engaged in interventions aimed at aiding the fluidity of this process Andrew Faull s thesis is an analysis of one such intervention focusing on SAPS members at one particular station It attempts to ascertain the extent to which members are changing as a result of particular diversity workshops conducted in a region of the Western Cape This work brings together an under examined intersection of diversity and police cultural theory in South Africa emphasizing the need for greater attention to these issues The project of Student Publications has been designed by SAVUSA NiZA and SANPAD to try and stimulate publication in the Netherlands of excellent South African MA theses on relevant Southern African themes Page 4 of cover H.R. 4005--Money Laundering Deterrence Act of 1998 & H.R. 1756--Money Laundering and Financial Crime Strategy Act of 1997 United States. Congress. House. Committee on Banking and Financial Services,1998 **Gender-Based Violence and Femicide in South Africa** Tameshnie Deane,2024-06-27 This book presents new perspectives on gender based violence GBV in South Africa It argues that violence against women is a manifestation of unequal gender relations and harmful manifestations of hegemonic masculinity which are governed by patriarchal beliefs institutions and systems It includes chapters on quantitative research that assess not only the levels and determinants of violence against women but also men s attitudes towards gender based violence perceptions of violence the legislative frameworks governing violence against women in South Africa and the current cases and jurisprudence relating to this scourge In spite of its focus on South Africa the book also provides insights for comparative scholars exploring the value of different constitutional articulations of human rights and how they support or fail to support efforts to combat violence against women By assessing recent incidents and responses to gender based violence the book provides a view of not only the societal but also jurisprudential opportunities and pitfalls in this area that may be applicable elsewhere Gender equality and central to this the right of women to live lives free of violence is a precondition for full democratic participation and is a universal goal Accordingly the South African experience contributes to a wider
