Space Science and Astronomy Theatre Margaret Boone Rappaport, Christopher J. Corbally, 2017-08-09 If you're a teacher or parent struggling to get youngsters or young adults interested in space science and astronomy or an inquisitive student then you'll love this fun filled book of theatrical scenes. In addition to astronomers and astronauts the scenes also feature engineers accountants graphic artists public relations practitioners biologists meteorologists and others who play a critical role in space adventures. Scenarios will take you into the past and into the future and include A cosmologist and a computer graphics artist are preparing a presentation for public television on theories about the distribution of galaxies in the universe and the placement of voids where no galaxies are found. An astrobiologist and an engineer discover the first positive biosignature data from an exoplanet near Earth. The findings provide a big surprise. Two recent high school graduates explore a star factory nebula in the constellation Orion and using a video arcade game they make speculations about the future. While the props and costumes needed for scripts are minimal the scenes promote deep learning. Literature 1974, Part 1 S. Böhme, U. Esser, W. Fricke, U. Güntzel-Lingner, F. Henn, D. Krahn, H. Scholl, G. Zech, 2013-03-14 *Astronomy and Astrophysics Abstracts* which has appeared in semi annual volumes since 1969 is devoted to the recording summarizing and indexing of astronomical publications throughout the world. It is prepared under the auspices of the International Astronomical Union according to a resolution adopted at the 14th General Assembly in 1970. *Astronomy and Astrophysics Abstracts* aims to present a comprehensive documentation of literature in all fields of astronomy and astrophysics. Every effort will be made to ensure that the average time interval between the date of receipt of the original literature and publication of the abstracts will not exceed eight months. This time interval is near to that achieved by monthly abstracting journals compared to which our system of accumulating abstracts for about six months offers the advantage of greater convenience for the user.
