Spaghetti Sissies Queering Italian American Media Julia Heim, Sole Anatrone, 2023-04-28 This contributed volume brings together personal accounts and scholarly research in an examination of the LGBTQIA Italian American experience and representation in North American media This is a population that has long been ignored both as an object of study and as a media maker and consumer Through consistent filmic representation the image of the Italian American has become archetypal leaving us with a set of immediately recognizable characters the hyper macho blue collar greaser the anti intellectual GTL Guido the child obsessed mamma and the heteronormative mafia family The rhetorical and

literal loudness of these characters drowns out other possible embodiments of Italian American identity so that few examples survive of Italian Americans that do not conform to these classed heterosexual modes of being This volume fills that void foregrounding the importance of representation and of rethinking the historical narratives and cultural stereotypes surrounding Italian American identity This book is especially designed for those with an interest in queer theory gender and sexuality studies Italian American studies and media and cultural studies

75 Years of Growth, Development and Productivity in India Dibyendu Maiti, Bishwanath Goldar, K.L. Krishna, 2025-07-23 This edited volume documents through its 75 years post independence the developmental complexities economic achievements and challenges unique to India given its vast population and regional cultural and climatic diversities with simple illustrations making them accessible to readers with varying levels of expertise Since gaining independence the Indian economy has embarked on a distinctive journey navigating through a series of economic policy experiments in diverse economic landscapes This distinct trajectory has not only accelerated its pace of economic growth but also addressed a myriad of developmental issues from poverty to well being with varied degrees of success over the years The detailed analysis and anecdotal evidence are at the

core to show how the country's experience and challenges are different from the linear model of development transition and must be understood in their own context. The academic papers both theoretical and empirical highlight the pace and patterns of sectoral dynamics since independence, unfold the issues and factors affecting development with a particular focus on the productivity growth of the Indian economy and showcase debates that may help planning policy for Vision 2047, the year when India would celebrate its centenary year of independence. The book contains 24 chapters divided into ten sections covering issues related to growth strategies, productivity growth, agricultural transition, growth heterogeneity, labour, rural non-farm sector and migration, social sectors including education and environment and debates on industrialisation and servicification, the principle features of Indian growth and development story. Given such diverse collection of chapters and discussions in them, the book will find readers across the developmental economics sphere ranging from academics to policy makers as well as industry experts.

The EU and the Eurozone Crisis Finn Laursen, 2016-02-17. The global financial crisis which started in the United States in 2007 spread to Europe in 2009. It especially hit Portugal, Ireland, Italy, Greece and Spain, countries which have introduced the single currency, the euro. These eurozone countries no longer have monetary policy autonomy so they do not have the option of devaluation to increase competitiveness. The crisis has shown that the Economic and Monetary Union (EMU) created in 1993 and which led to the single currency in 1999 is faulty. Its built-in asymmetry with centralised monetary policy and decentralised fiscal policy should be expected to create problems. Part of the response to the crisis so far has been incremental moves towards fiscal and banking union which will mean a deepening of European integration at a time when many observers believed that a certain equilibrium had been reached after the entry into force of the Lisbon Treaty in 2009. This book focuses on these developments as well as analysing other economic policies that affect the general economic welfare of the EU, including agriculture, trade and immigration policies. The book puts the eurozone crisis into the wider context of deepening and widening.

Economic Integration, Currency Union, and Sustainable and Inclusive Growth in East Africa Almas Heshmati, 2016-04-30. This edited volume focuses on economic integration, currency union and sustainable and inclusive growth in East Africa. It consists of twelve interrelated studies that provide a comprehensive picture of the state and determinants of economic development and cooperation among countries in East Africa such as Burundi, Ethiopia, Kenya, Rwanda and Tanzania. The contributions are grouped into five parts: economic integration and its effects on trade; common currency and exchange rate research; innovation and knowledge; shadow economics and corruption; inclusive and sustainable growth and the conflict-growth nexus and reconstruction. This book will appeal to scholars and decision makers looking for the necessary tools and determinants of economic development and cooperation in East Africa.

Finance in Asia Qiao Liu, Paul Lejot, Douglas W. Arner, 2013 Asia's demand for second generation financial institutions and markets needs to be met in order for the region's further development to be sustained. This book provides a compelling fact based assessment of current practices and regulations in Asia's financial institutions and markets and carefully documents the exciting opportunities and challenges that lie ahead in the region's financial systems. This book differs in design from typical treatments of financial institutions and markets because its focus is on Asia rather than using the US model in terms of market configurations or products as a benchmark and it takes a contemporary and forward looking view of financial markets. Examples of practice from Asia are used to illustrate major accepted themes in finance and financial regulation. To the extent that Asia's main economies share characteristics that are distinct for example in the relationship between government and the banking sector or in aspects of corporate governance the book will discuss the consequences for market operation and intermediation. The book's carefully structured facts and rigorously argued analysis carry important implications both for students in business and law and for professionals new to financial markets in Asia. It will change the way that Asian financial markets and institutions is taught in universities as well as provide a valuable resource for professionals working in finance in Asia.

Creating a Eurasian Union Y. Vymyatnina, D. Antonova, 2014-07-02 Creating a Eurasian Union offers a detailed analysis of the economies of the Customs Union of Russia, Belarus and Kazakhstan and the proposed Eurasian Union. The authors employ econometric analysis of business cycles and cointegration analysis to prove the fragility of the union's potential economic success. By providing a brief description of the economic integration of the former Soviet republics this pioneering work analyses the on going trial and error processes of market integration led by Russia. Vymyatnina and Antonova's distinctive argument is the first consistent analysis of the emerging Eurasian Union. They incorporate both a non technical summary of the integration process and previous research and analytical comments as well as a thorough empirical analysis of the real data on the economic development of the participating countries to caution that the speed of integration might undermine the feasibility of the Eurasian Union.
