The Ephemeral History of Perfume Holly Dugan, 2011-09-14 In contrast to the other senses smell has long been thought of as too elusive too fleeting for traditional historical study Holly Dugan disagrees arguing that there are rich accounts documenting how men and women produced consumed and represented perfumes and their ephemeral effects She delves deeply into the cultural archive of olfaction to explore what a sense of smell reveals about everyday life in early modern England In this book Dugan focuses on six important scents incense rose sassafras rosemary ambergris and jasmine She links these smells to the unique spaces they inhabited churches courts contact zones plague ridden households luxury markets and pleasure gardens and the objects used to dispense them This original approach provides a rare opportunity to study how early modern men and women negotiated the environment in their everyday lives and the importance of smell to their daily actions Dugan defines perfume broadly to include spices flowers herbs animal parts trees resins and other ingredients used to produce artificial scents smokes fumes airs balms powders and liquids In researching these Renaissance aromas Dugan uncovers the extraordinary ways now largely lost that people at the time spoke and wrote about smell objects ambered civited expired fetored halited resented and smeeked or were described as breathful embathed endulced gracious halited incensial odorant pulvil redolent and suffite A unique contribution to early modern studies The Ephemeral History of Perfume is an unparalleled study of olfaction in the
