models of the Skyraider American pilots were required to have VNAF observers in the aircraft for every mission Eventually this arrangement was changed as enough Vietnamese pilots were trained to man their own squadrons while USAF squadrons were tasked with close support for US ground forces Eventually no fewer than four USAF and seven VNAF Skyraider units saw service in Vietnam Additionally one A 1 training squadron flew from Hurlburt Field Florida throughout the Vietnam War era In the ten years that this squadron was active nearly 1000 USAF and 300 VNAF pilots were trained in the Skyraider While the core mission of all Skyraider squadrons was Close Air Support CAS other missions were accomplished at various times Among these were Search and Rescue SAR night interdiction on the Ho Chi Minh trail helicopter escort and special forces support to name but a few Each of these missions took full advantage of the Skyraider's ability to deliver a variety of munitions in close proximity to friendly forces while inflicting heavy casualties on enemy forces US Navy A-1 Skyraider Units of the Vietnam War Rick Burgess, Zip Rausa, 2013-01-20 A detailed illustrated combat history of an aircraft described as a legend in its own time The A 1 was designed for use in World War 2 yet proved so versatile and capable that it saw service in the Vietnam War some 20 years later Nicknamed the flying dump truck the A 1 was a key component in naval air wings from the end of World War II into the 1960s allowing the aircraft to play its part in the escalating conflict in Vietnam Both A 1 attack and EA 1F airborne early warning aircraft saw action in Southeast Asia from 1960 through 1969 when the last examples were finally retired from carrier decks The A 1s in particular bombed targets in both North and South Vietnam despite the aircraft being highly vulnerable to enemy flak and fighters Co written by a two tour Vietnam War combat veteran in the A 1 and featuring stunning profile artwork this is the first book that focuses exclusively on the aircraft's service in Vietnam **Jane's All the World's Aircraft**, 2007 Television Manual John Francis Rider, 1959 **Land Based Air Power or Aircraft Carriers?** Gjert Lage Dyndal, 2016-04-22 During the 1960s in the midst of its retreat from empire the British government had to grapple with complex political and military problems in order to find a strategic defence policy that was both credible and affordable Addressing what was perhaps the most contentious issue within those debates this book charts the arguments that raged between supporters of a land based air power strategy and those who favoured aircraft carriers Drawing upon a wealth of previously classified documents the book reveals how the Admiralty and Air Ministry became interlocked in a bitter political struggle over which of their military strategies could best meet Britain's future foreign policy challenges Whilst the broad story of this inter service rivalry is well known the Air Force's proposal for a series of island based airfields and the Navy championing of a small number of expensive but mobile aircraft carriers the complexity and previous lack of archival sources means that it has until now only ever been partially researched and understood Former studies have largely focused on the cancellation of the CVA 01 carrier programme and offered little depth as regards the Royal Air Force perspectives Given that this was a two Service rivalry which greatly influenced many aspects of British foreign and defence policy decisions of the period this book presents an important and balanced overview of the complex

issues involved Through this historical study of the British debate about maritime air power and strategic alternatives in the 1960s the detailed arguments used for and against both alternatives demonstrate clear relevance to both historical and contemporary conceptual debates on carrier forces and land based air power Both from military strategy and inter service relationship perspectives contemporary Britain and many other nations with maritime forces may learn much from this historical case *The International Military Encyclopedia: A-I Skyraider-Acre, Siege of, 1799* Norman Tobias,1992

Tetra Nova Sophia Terazawa,2025-02-25 Tetra Nova tells the story of Lua Mater an obscure Roman goddess who re imagines herself as an assassin coming to terms with an emerging performance artist identity in the late 20th century The operatic text begins in Saigon where she meets a little girl named Emi an American of Vietnamese Japanese descent visiting her mother s country for the first time since the war s end As the voices of Lua and Emi blend into one dissociated narration the stories accelerate out of sequence mapping upon the globe a series of collective memories and traumas passed from one generation to the next Darting between the temples of Nagasaki the mountains of Tucson and an island refugee camp off the coast of Malaysia Lua and Emi in one embodied memory travel across the English language itself to make sense of a history neither wanted When a tiny Panda named Panda suddenly arrives fate intervenes and the work acts as a larger historical document unpacking legacies of genocide and the radical modes of resistance that follow At the heart of this production lies a postcolonial identity in exile and the performers must come to terms with who may or may not carry their stories forward Emi or Lua Part dreamscape part investigative poetics multiple fragmenting identities traverse across time and space the mythic and the profane toward an understanding of humanity beyond those temple chamber doors **Plotting a True**
