The Power of Picture Books in Teaching Math and Science Lynn Columbia, 2017-05-12 This book's 50 plus lessons each based on a different picture book or story will help classroom teachers build a foundation for teaching math science and social studies concepts to their students. Each lesson uses children's literature to make challenging abstract concepts relevant to children's lives inviting them to learn these concepts while responding to a story's illustrations theme characters and plot. The lessons also demonstrate how teachers can use children's literature to meet national standards in math science and social studies. Chapters 1 through 5 set the stage for using picture books discussing the effective imaginative integration of literature into the classroom. Teachers will learn to create an environment that ensures that when children and books come together the experience is enjoyable and thought provoking. Chapters 6 through 9 provide individual lessons by grade level with detailed activities based on specific books.
