Transparency English Edition:

Transparency Daniel Jutte, 2023-04-25 A wide ranging illustrated history of transparency as told through the evolution of the glass window Transparency is a mantra of our day It is key to the Western understanding of a liberal society We expect transparency from for instance political institutions corporations and the media But how did it become such a powerful and global idea From ancient glass to Apple s corporate headquarters this book is the first to probe how Western people have experienced conceptualized and evaluated transparency Daniel Jutte argues that the experience of transparency has been inextricably linked to one element of Western architecture the glass window Windows are meant to be unnoticed Yet a historical perspective reveals the role that glass has played in shaping how we see and interpret the world A seemingly pure material glass has been endowed throughout history with political social and cultural meaning in manifold and sometimes conflicting ways At the same time Jutte raises questions about the future of vitreous transparency its costs in terms of visual privacy but also its ecological price tag in an age of accelerating climate change

Media Transparency in China Baohui Xie, 2014-08-20 This book argues that the gap between the official transparency rhetoric and the censorship reality has demonstrated the discrepancy between what the Party is and what it claims to be Such a discrepancy is manifested by the reality that the reformed news industry a hybrid of market oriented commercialization and party state control has largely failed to deliver either the voice of the disenfranchised groups or the value of journalism To observe the discrepancy this book investigates the role of transparency in the Chinese news media Media transparency which goes beyond the issue of censorship and press

freedom has been undermined by the consensus reached between the party state and the media on political and market control It is this mutually accommodating and benefiting scheme between power and profits that has been hollowing out the substance of the transparency rhetoric and distorting the Marxist idea of press freedom as freedom for all This book argues that the cause of such a gap between rhetoric and reality is rooted in the disjuncture of political representation of both the party state and the profit seeking media Assessing Government Transparency in China (2020) He Tian,Yanbin

Transparency and Reflection Matthew Boyle,2024 The maxim Know thyself has been central to philosophy since antiquity but today there is widespread skepticism both within philosophy and in our intellectual culture at large about the extent to which we can truly know our own minds and the extent to which self knowledge matters to our lives Transparency and Reflection argues that although we can be mistaken about ourselves in many respects such mistakes occur against the background of a fundamental self understanding that is necessarily available to any human subject To deny this essential capacity for self understanding Matthew Boyle argues is to leave out the very thing that makes us human **This Obscure**

Thing Called Transparency Emmanuel Alloa,2022-03-31 The paradoxical logic of transparency and mediation Transparency is the metaphor of our time Whether in government or corporate governance finance technology health or the media it is ubiquitous today and there is hardly a current debate that does not call for more transparency But what does this word actually stand for and what are the consequences for the life of individuals Can knowledge from the arts and its play of visibility and invisibility tell us something about the paradoxical logics of transparency and mediation This Obscure Thing Called Transparency gathers contributions by international experts who critically assess the promises and perils of transparency today

Transparency and Apperception Boris Hennig, David Hunter, Thomas Land, 2020-09-10 Transparency and Apperception Exploring the Kantian Roots of a Contemporary Debate explores the links between the idea that belief is transparent and Kant's claims about apperception. Transparency is the idea that a person can answer questions about whether she for instance believes something by considering not her own psychological states but the objects and properties the belief is about. This marks a sharp contrast between a first person and third person perspective on one's current mental states. This idea has deep roots in Kant's doctrine of apperception: the claim that the human mind is essentially self-conscious and Kant held that it underlies the responsibility that a person has for certain of their own mental states. Nevertheless, the idea of transparency and its roots in apperception remain obscure and give rise to difficult methodological and exegetical questions. The contributions in this work address these questions and will be required reading for anyone working on this intersection of the philosophy of mind and language and epistemology. The chapters in this book were originally published in a special issue of the Canadian Journal of Philosophy.

Ghosts of Transparency Michael R. Doyle, Selena Savić, Vera Bühlmann, 2019-09-23 In this book the editors focus on architecture and communication from various different perspectives, taking into account that the term architecture is used for buildings as well as in the context of computer software. Data and software also impact on our cities: raw data however do not convey any information; in order to generate information and communication they have to be organized and must make sense to the reader. The contributions avoid clear separation of the various communication spheres of their disciplines. Instead they use the wide range of approaches to explore meanings: an ambitious aim that leaves the destination wide open. The reader is invited to share in this adventure.

The Transparency of Time Leonardo Padura, 2021-06-15 From Leonardo Padura whose crime novels featuring Detective Mario Conde form the basis of Netflix's *Four Seasons in Havana*. The Transparency of Time sees the Cuban investigator pursuing a mystery spanning centuries of occult history. Mario Conde is facing down his sixtieth birthday. What does he have to show for his decades on the planet? A failing body, a slower mind, and a decrepit country in which both the ideals and failures of the Cuban Revolution are being swept away in favor of a new and newly cosmopolitan worship of money. Rescue comes in the form of a new case: an old Marxist turned flamboyant practitioner of Santería appears on the scene to engage Conde to track down a stolen statue of the Virgen de Regla, a black Madonna. This sets Conde on a quest that spans twenty-first century Havana as well as the distant past as he delves as far back as the Crusades in an attempt to uncover the true provenance of the statue. Through vignettes from the life of a Catalan peasant named Antoni Barral who appears throughout history in different guises—as a shepherd during the Spanish Civil War, as vassal to a feudal lord—we trace the Madonna to present-day Cuba. With Barral serving as Conde's alter ego unstuck in time and Conde serving as the author's, we are treated to a panorama of history and reminded of the impossibility of ever remaining on its sidelines, no matter how obscure we may think our places in the action.

Equal parts *The Name of the Rose*

and *The Maltese Falcon* *The Transparency of Time* cements Leonardo Padura's position as the preeminent literary crime writer of our time

Transparency in Insurance Contract Law Pierpaolo Marano, Kyriaki Noussia, 2020-03-11 This Volume of the AIDA Europe Research Series on Insurance Law and Regulation focuses on transparency as the guiding principle of modern insurance law It consists of chapters written by leaders in the respective field who address transparency in a range of civil and common law jurisdictions along with overview chapters Each chapter reviews the transparency principles applicable in the jurisdiction discussed Whether expressly or impliedly all jurisdictions recognize a duty on the part of the insured to make a fair presentation of the risk when submitting a proposal for cover to the insurers although there is little consensus on the scope of that duty Disputed matters in this regard include whether it is satisfied by honest answers to express questions or whether there is a spontaneous duty of disclosure whether facts relating to the insured's character as opposed to the nature of the risk itself are to be presented to the insurers the role of insurance intermediaries in the placement process and the remedy for breach of duty Transparency is however a much wider concept Potential policyholders are in principle entitled to be made aware of the key terms of coverage and to be warned of hidden traps such as conditions precedent average clauses and excess provisions but there are a range of different approaches Some

jurisdictions have adopted a soft law approach using codes of practice for pre contract disclosure while other jurisdictions employ the rather nebulous duty of utmost good faith Leaving aside placement transparency is also demanded after the policy has been incepted The insured is required to be transparent during the claims process There is less consistency in national legislation regarding the implementation of transparency by insurers in the context of handling claims
