Counting Marilyn Waring, 2018-12-06 Underneath the numbers a philosophical judgement is always being made based on values not facts Thirty years ago Marilyn Waring's groundbreaking book Counting for Nothing was released Waring explained through meticulous economic analysis how the success of the global economy rests on women's unpaid work Counting for Nothing became a phenomenon it was read and discussed around the world and even made into a film Today many people hope that the shift to a wellbeing approach moving beyond narrow economic indicators when assessing New Zealand's progress will mean women's work is finally valued fairly But what does Marilyn Waring make of it This short book provides an essential assessment of wellbeing economics from a leading feminist scholar *The Evidence Book* Olaf Rieper, Frans L. Leeuw, Tom Ling, 2017-09-08 Knowledge grows as ideas are tested against each other Agreement is not resolved simply by naming concepts but in the dialectical process of thesis antithesis and synthesis There are many echoes of these debates in The Evidence Book The contributors make claims for both practitioner wisdom and the voice of experience Against this is posed the authority of experimental science and the randomized controlled trial The contributors are concerned in their own ways with collecting ranking and analyzing evidence and using this to deliver evaluations As an expert group they are aware that the concept of evidence has been increasingly important in the last decade As with other concepts it too often escapes precise definition Despite this the growing importance of evidence has been advocated with enthusiasm by supporters who see it as a way of increasing the effectiveness and quality of decisions and of professional life The willingness to engage in evidence based policy and the means to do so is heavily constrained by economic political and cultural climates This book is a marvelously comprehensive and utterly unique treatise on evidence based policy It is a wide ranging contribution to the field of evaluation **From Veda to Vision 2040: Reimagining the Foundations of Indian**
