Training Center for Psychological Studies Nova Southeastern University Fort Lauderdale Davie FL I strongly recommend Treating Adult Substance Abuse Using Family Behavior Therapy Donohue and Allen give readers a step by step approach using empirical strategies client therapist dialogues checklists and handouts that make the therapy process clear and concrete This book is a must read for all who want to use FBT in their practice Robert J Meyers PhD Emeritus Associate Research Professor of Psychology University of New Mexico I am delighted with the book Treating Adult Substance Abuse Using Family Behavior Therapy As a relatively new therapist I used the FBT protocols in a practice setting and the highly structured interventions provided me a sense of confidence while developing professional competence in working with very challenging populations Although simple in theory families are empowered by these absolutely positive techniques Amy S Bizjak Staff Development Training Coordinator Bethesda Children s Home Meadville PA Practical step by step guidance for using Family Behavior Therapy FBT in the treatment of adults dealing with substance abuse Treating Adult Substance Abuse Using Family Behavior Therapy clearly explains how this evidence supported treatment can be implemented in a flexible straightforward manner and covers The underlying framework and infrastructure necessary for treatment providers to effectively implement FBT Strategies for establishing effective consumer driven treatment plans with clients prior to each session Skills training and exercises that teach conflict management and how to build healthy relationships Standardized methods for managing problems that coexist with substance abuse such as unemployment depression and incarceration With an accompanying CD ROM containing worksheets handouts and other practical materials this hands on behavioral approach to therapy equips all mental health professionals with effective strategies to help adult substance abusers and their families through the recovery process

From the Womb to the Tomb Carl Toersbijn, 2014-12-27 An in depth book about twenty six year old Tony Lester s preventable suicide and how he struggled to be recognized as a special needs person from the time he was arrested to the time he died Real case documentation that has been validated by internal reports and inspections This book will make you think about the role the criminal justice system plays with those seriously mentally ill and experiencing coping and functional difficulties No political slandering here just the facts as they were reported by KPNX investigative reporter Wendy Halloran and myself and how the family sought help in exposing the wrongful death of their son nephew leaving behind a young girl left without her father ever coming home to her This book comprehensively covers the police report the rule 11 procedures and the investigation into his death Also included are excerpts from the ACLU findings and how they applied to Tony s personal crises and how his needs were downplayed due to cultural beliefs inmates are manipulators and always have a motive thus they are liars and unworthy of trust or care for their problems Based on the same dynamics found by the ACLU experts this reveals the shoddy work of the state s medical and psychiatric care standards applied in ad hoc conditions because of lack of commitment resources staffing and training Tony experienced the perfect storm when he was incarcerated and died in less than four months of doing time An exclusive peek at a crisis situation still

simmering inside the department of corrections systems that has failed him and thousands of others It shows how his treatment needs were ignored as well as his pleas unheeded resulting in his death and how they compare to today s findings still broken and still not fixed This book is an in depth detailed layout of the culture the practices the deliberate indifferences toward the mentally ill and how mentally ill persons are victimized and criminalized by political and criminal justice approaches and dynamics toward the seriously ill persons and how they must deal with the stigmas and discrimination of being a mentally ill person inside Arizona prisons Dynamics include sociopolitical ramifications for being incarcerated suicide watch culture adequate care and treatment security attitudes toward these special needs persons and much more Real case scenarios listed from the ACLU class action lawsuit that resembles or duplicates Tony s plight frustration and situations that ended his life This book illustrates shoddy death investigations marginalized attitudes about human values in prison and other cultural influences that dictate how prisons are run prisoners are mistreated and even some darkness on solitary confinement in the detention units and max custody facilities A real wakeup call for many who have family members in prison and others wanting to change prison conditions Included are the family s frustrations with an agency which boasts the best defense of keeping secrets behind closed doors and the struggle KPNX and Wendy Halloran went through to get the secret video All in all it is an in depth account of how a wrongful death leaves people devastated and asking the most frequent question why When you read this book you will see the root of causes After you read this book you will understand the agony and despair a mentally ill person endures when they are labeled ignored or ridiculed by the system that is supposedly protect them

Treating Child-Abusive Families Jeffrey A. Kelly, 2013-11-21 During the past ten years the problem of child abuse has been the subject of increased attention both in the professional community and among the general public The reasons for this widespread recognition are clear First professionals of many disciplines deal with child abusive families and do so in a variety of ways Physicians hospital staff and teachers are often the first to assess a child as the victim of abuse social workers and child protective personnel investigate cases of suspected abuse court and legal authorities make determinations concerning the needs of an abused child and mental health professionals including psychologists social workers and family counselors often have responsibility for treating abusive families Few clinical problems have received this kind of widespread interdisciplinary recognition and given the nature and seriousness of child abusive behavior few problems receive such intensive attention within each profession s literature A second factor responsible for increased study of child abuse is the fact that violence directed toward children is probably the most extreme form of family dysfunction seen by counselors therapists and other practitioners While other types of child management and anger control problems occur far more frequently the consequences of child abusive behavior are much more serious than the consequences of other problems seen in child or family clinics It has been estimated that as many as 550 000 children are the targets of parental abuse in the country each year Helfer Kemper 1976 *Senate Bill* California. Legislature. Senate, 1978
