Soft Skills in Education Jaap Scheerens,Greetje van der Werf,Hester de Boer,2020-08-25 This book examines the global movement of putting more emphasis on students social and emotional development in education It provides some order in the unstructured multitude of desirable socio emotional educational objectives and ambitions that have resulted from this movement and builds on a careful conceptual analysis It starts out by examining the roots of the movement and discusses different emphases Next it makes use of instructional and psychological constructs and theories to arrive at meaningful categorizations of major domains and types of social emotional skills One of the key assumptions is that social and emotional attributes are malleable by means of educational interventions The book

reviews available research evidence for this assumption taking into account psychological studies and meta analyses It then creates new evidence based on a new meta analysis which concentrated on the effects of educational interventions on skills associated with the conscientiousness factor of the Big5 taxonomy In the final chapter the book discusses the implications for educational policy and practice a discussion in which attention is given to political and ethical questions about the

desirability of treating social and emotional attributes as educational goals **People Power in an Era of Global Crisis**

Barry K. Gills, Kevin Gray, 2013-10-31 A quarter of a century has now passed since the historic popular uprising that led to the overthrow of the Ferdinand Marcos dictatorship in the Philippines The mass movement known as the People Power Revolution was not only pivotal to the democratic transition within the Philippines but it also became an inspiration for subsequent mass movements leading to further democratic transitions throughout the Third World and in the former Communist bloc in Eastern Europe and the Soviet Union However the neoliberal economic policies subsequently pursued by newly democratic governments throughout the Third World led all but the most celebratory observers to note the constrained and limited nature of these formal political transitions This volume poses the question of the extent to which people power has been able to play an active role resisting neoliberalism and deepen substantive democracy and social justice Through a series of case studies of the regions and individual countries of Asia Africa Latin America and Eastern Europe the contributions in the volume provide a new set of original and in depth critical assessments of the nature of the longer term impact of the democratic transitions commencing in the 1980s and continuing until the present and questioning their impact and potential influence on human dignity freedom justice and self determination and thus opening new avenues of enquiry into the future of democracy This book was originally published as a special issue of Third World Quarterly *Rural Wage*

Employment in Developing Countries Carlos Oya, Nicola Pontara, 2015-05-22 There is a striking scarcity of work conducted on rural labour markets in the developing world particularly in Africa This book aims to fill this gap by bringing together a group of contributors who boast substantial field experience researching rural wage employment in various developing countries It provides critical perspectives on mainstream approaches to rural agrarian development and analysis of agrarian change and rural transformations from a long term perspective This book challenges the notion that rural areas in low and middle income countries are dominated by self employment It purports that this conventional view is largely due to the application of conceptual frameworks and statistical conventions that are ill equipped to capture labour market participation The contributions in this book offer a variety of methodological lessons for the study of rural labour markets focusing in particular on the use of mixed methods in micro level field research and more emphasis on capturing occupation multiplicity The emphasis on context history and specific configurations of power relations affecting rural labour market outcomes are key and reoccurring features of this book This analysis will help readers think about policy options to improve the quantity and quality of rural wage employment their impact on the poorest rural people and their political feasibility in each context

Psychopathology at School Valerie Harwood, Julie Allan, 2014-03-26 Psychopathology at School provides a timely response to concerns about the rising numbers of children whose behaviour is recognised and understood as a medicalised condition rather than simply as poor behaviour caused by other factors It is the first scholarly analysis of psychopathology which draws on the philosophers Foucault Deleuze Guattari and Arendt to examine the processes whereby children s behaviour is pathologised The heightened attention to mental disorders is contrasted with education practices in the early and mid to late twentieth century and the emergence of a new conceptualization of childhood is explored Taking education as a central component to the contemporary experience of growing up the book charts the ways in which mental disorders have become commonplace in childhood and youth from birth through to college and university but also offers examples of where professionals have refused to pathologise children s behaviour The book examines the extent of the influence of psychopathology on the lives of children and young people as well as the practices that infiltrate education and the possibilities for alternative educational responses that negate the diagnosis of mental disorder Psychopathology at School

is a must read for anyone concerned about the growing influence of psychopathology in education and will be of particular interest to educated readers and to scholars students and professionals in education psychiatry psychology child studies youth studies nursing social work and sociology The International Journal of Indian Psychology, Volume 4, Issue 1, (No. 79) IJIP.In,2016-12-01
