Bad Blood John Carreyrou, 2018-05-21 NATIONAL BESTSELLER The gripping story of Elizabeth Holmes and Theranos one of the biggest corporate frauds in history a tale of ambition and hubris set amid the bold promises of Silicon Valley rigorously reported by the prize winning journalist With a new Afterword covering her trial and sentencing bringing the story to a close Chilling Reads like a thriller Carreyrou tells the Theranos story virtually to perfection The New York Times Book Review In 2014 Theranos founder and CEO Elizabeth Holmes was widely seen as the next Steve Jobs a brilliant Stanford dropout whose startup unicorn promised to revolutionize the medical industry with its breakthrough device which performed the whole range of laboratory tests from a single drop of blood Backed by investors such as Larry Ellison and Tim Draper Theranos sold shares in a fundraising round that valued the company at more than 9 billion putting Holmes's worth at

an estimated 4.5 billion. There was just one problem: The technology didn't work. Erroneous results put patients in danger leading to misdiagnoses and unnecessary treatments. All the while, Holmes and her partner Sunny Balwani worked to silence anyone who voiced misgivings from journalists to their own employees. 1995 W. Joseph Campbell, 2015-01-02 A hinge moment in recent American history, 1995 was an exceptional year. Drawing on interviews, oral histories, memoirs, archival collections, and news reports, W. Joseph Campbell presents a vivid, detail-rich portrait of those memorable twelve months. This book offers fresh interpretations of the decisive moments of 1995, including the emergence of the Internet and the World Wide Web in mainstream American life, the bombing at Oklahoma City, the deadliest attack of domestic terrorism in U.S. history, the sensational Trial of the Century at which O.J. Simpson faced charges of double murder, the U.S. brokered negotiations at Dayton, Ohio, which ended the Bosnian War, Europe's most vicious conflict since the Nazi era, and the first encounters at the White House between Bill Clinton and Monica Lewinsky, a liaison that culminated in a stunning scandal and the spectacle of the president's impeachment and trial. As Campbell demonstrates in this absorbing chronicle, 1995 was a year of extraordinary events, a watershed at the turn of the millennium. The effects of that pivotal year reverberate still, marking the close of one century and the dawning of another. Unsung Heroes of the Dachau Trials John J.

Dunphy, 2024-08-28 The U.S. Army 7708 War Crimes Group investigated atrocities committed in Germany and Nazi-occupied Europe during World War II. These young Americans, many barely out of their teens, gathered evidence, interviewed witnesses, apprehended suspects, and prosecuted defendants at trials held at Dachau. Their work often put them in harm's way; some suspects facing arrest preferred to shoot it out. The War Crimes Group successfully prosecuted the perpetrators of the Malmédy Massacre, in which 84 American prisoners of war were shot by their German captors, and Waffen-SS commando Otto Skorzeny, aptly described as the most dangerous man in Europe. Operation Paperclip, however, placed some war criminals, scientists, and engineers recruited by the U.S. government beyond their reach. From the ruins of the Third Reich arose a Nazi underground that preyed on Americans, especially members of the Group. **The Principle of Subsidiarity and its**

Enforcement in the EU Legal Order Katarzyna Granat, 2018-05-31 In this book, Katarzyna Granat analyses and evaluates Europe's experience with the Early Warning System (EWS), which allows national parliaments to review draft legislative acts of the European Union for their compatibility with the subsidiarity principle. The EWS was introduced in response to the perceived democratic deficit of the EU and its creeping competences and represented one of the landmark reforms of the Lisbon Treaty. The purpose of this book is to present and critically analyse the functioning of the new mechanism of subsidiarity review and the role that national parliaments have played within this system. Compared to the existing leading publications on the Europeanisation of national parliaments and contributions on the EU principle of subsidiarity, this book offers for the first time a profound legal analysis of the procedure, enriched by a comprehensive empirical analysis of the activities of national parliaments. It is directed at scholars of EU law and policy, European and national officials, and legal
