The Book of Household Management Isabella Beeton, 2016-08-17 I must frankly own that if I had known beforehand that this book would have cost me the labour which it has I should never have been courageous enough to commence it What moved me in the first instance to attempt a work like this was the discomfort and suffering which I had seen brought upon men and women by household mismanagement I have always thought that there is no more fruitful source of family discontent than a housewife's badly cooked dinners and untidy ways Men are now so well served out of doors at their clubs well ordered taverns and dining houses that in order to compete with the attractions of these places a mistress must be thoroughly acquainted with the theory and practice of cookery as well as be perfectly conversant with all the other arts of making and keeping a comfortable home In this book I have attempted to give under the chapters devoted to cookery an intelligible arrangement to every recipe a list of the ingredients a plain statement of the mode of preparing each dish and a careful estimate of its cost the number of people for whom it is sufficient and the time when it is seasonable For the matter of the recipes I am indebted in some measure to many correspondents of the Englishwoman's Domestic Magazine who have obligingly placed at my disposal their formulas for many original preparations A large private circle has also rendered me considerable service A diligent study of the works of the best modern writers on cookery was also necessary to the faithful fulfilment of my task Friends in England Scotland Ireland France and Germany have also very materially aided me I have paid great attention to those recipes which come under the head of COLD MEAT COOKERY
