## **Trickster Makes This World Study Guide:**

**Trickster Makes This World** Lewis Hyde, 2010-08-17 In *Trickster Makes This World* Lewis Hyde brings to life the playful and disruptive side of human imagination as it is embodied in trickster mythology. He first visits the old stories: Hermes in Greece, Eshu in West Africa, Krishna in India, Coyote in North America, among others, and then holds them up against the lives and work of more recent creators: Picasso, Duchamp, Ginsberg, John Cage, and Frederick Douglass. Twelve years after its first publication, *Trickster Makes This World* authoritative in its scholarship, loose limbed in its style, has taken its place among the great works of modern cultural criticism. This new edition includes an introduction by Michael Chabon.

**Interpretation in Architecture** Adrian Snodgrass, Richard Coyne, 2013-05-13 Drawing on cultural theory, phenomenology, and concepts from Asian art and philosophy, this book reflects on the role of interpretation in the act of architectural creation, bringing an intellectual and scholarly dimension to real-world architectural design practice. For practising architects as well as academic researchers, these essays consider interpretation from three theoretical standpoints or themes: play, edification, and otherness. Focusing on these, the book draws together strands of thought informed by the diverse reflections of hermeneutical scholarship, the uses of digital media, and studio teaching and practice. **Radical**

**Doubt** Mady Schutzman, 2018-07-24 *Radical Doubt* investigates ethical play across a spectrum of performances on and off the stage. In witty, recursive, personal, and propulsive prose, Mady Schutzman elaborates on the Joker System conceived by Augusto Boal, best known for *Theatre of the Oppressed*. The Joker System is a collaborative approach to representing social dilemmas through a rare fusion of destabilizing ambiguity and journalistic rigor. Schutzman models the Joker System while expanding well beyond the theatrical. In polyphonic compositions that perform their own philosophy, she uncovers illuminating links between calculus and conjuring, k and resistance, humor and witnessing, complexity theory and sorely needed new practices of living in our divisive times. These life practices rely upon crafty and circuitous strategies to deliver their subversive punch. *Joking matters*, Schutzman insists. When communities fragment and identities fixate, enter the
