

Most bearing word problems involving trigonometry and angles can be reduced to finding relationships between angles and the measurements of the sides of a **triangle**. In this case, finding the right **basic trigonometric functions** to relate the **angles** and measurements are crucial for setting up and solving the problem correctly.

Trigonometry of angles and sides can be used daily in the workplace, such as in carpentry, construction work, engineering, etc. [Click here](#) accessed on [28 October 2020].
