Three Proofs for the Existence of God Uchemadu Chée Kamanu, 2020-12-24 *Three Proofs for the Existence of God* gives scientific historic and prophetic proofs for the existence of God. If we do not think that a computer or even a bicycle could have come up by chance without a designer, could we think that man who made the computer could have come up by chance without a designer? Chance and design are mutually exclusive; the disproof of the one is the proof of the other. There is no third option. In biogenesis, genetics, dendrochronology, geophysics, and thermodynamics, evolution theory has been disproved experimentally and observationally. By default, therefore, design has been proven. Any attempt by evolutionists to experimentally disprove design or prove chance ends up proving design. The one conducting the experiment is the designer of that experiment, and the result is his design. If the experiment is left to chance, nothing happens. With historic data from the Bible added up, we show the year God created man and other things. Acts and relationships between God and his creation show up in other chapters to remind us that the Creator God lives and wills. One of these chapters, *Black History in Scripture*, disproves the saying that Christianity is the white man's religion. We show that the scriptures were translated into three African languages for ten centuries before there was an English Bible among other facts. Did Jesus not live in Israel and Africa only?

LIONHEART Carl G.M. Joseph Th.D., 2025-08-08 There is no sadder epitaph than I never became what I might have been. In truth, most people never discover their true purpose because it can only be found in the mind of the Creator. Communing with the Creator is the key to manifest destiny, yet so few lions take the time. For years now, the *Lions Unchained* Podcast has challenged believers to unleash their God-given destiny. Many lions are caught up in the demands of the day-to-day scouring of the savanna, chasing down warthogs or taking care of the cubs. Consequently, purposeful living becomes an afterthought, and the grind becomes the norm. The purpose of this book is to activate God's call on your life and equip you to do so by revealing five key concepts which are foundational for Christian success. No matter where you are in life, it is never too late as far as God's concerned. It is time to unleash the warrior within.

Answers for the Honest Skeptic Ted Even,2020-11-25 It is true that mankind himself has probably always been characterized with the main desire to determine just what spiritual truth really is For centuries and centuries highly educated philosophers and religious men alike have always stood toe to toe disagreeing on spiritual truth Since they cannot all be right this would strongly indicate that education religious persuasion or even intelligence has little to do with our discovery of the real spiritual truth For if these things were truly critical then obviously the spiritual intellectual giants of history would have agreed on spiritual truth long ago In this work author Ted Even endeavors to show that the disagreeing intellectuals skeptics of the past only serve to reinforce Christ s radical statement about our need to just become like little children in order to discover the spiritual truth and that literally everyone has the same opportunity to enter the kingdom of heaven on that basis However while super intelligence or big degrees may not be necessary the discovery of spiritual truth does require just one very reasonable quality of heart which little children have always possessed Find out just what this basic quality of heart is as you continue your search for spiritual truth within this simple to understand work which only leaves the real spiritual truth left standing *Profile of a Religious Man* Edwin Zackrison,2020-11-11 This book is a journey book Sitting down at a computer and producing the story has been a grand trek I have learned that there is a principle in nature that some things need to mellow calm down and soak in The refusal of winemakers to take a wine before its time is a notion I am coming to understand It works with writers as well Like a fetus signaling its mother that it is time to head for the hospital a literary work stays in the mind until its time In my education I have read of the battles of great Church leaders who were eventually thrown out of their churches In my denominational education I was largely led to see them as heretics rebels eccentrics revolutionaries apostates and as generally representing a lower form of spirituality Church education often asked me to surrender my biases in favor of accepting a new set of assumptions my denominational ones We were to be critical of everything except our organization I submit that there is danger in that This book will cover incidents from the first forty years of my life as a religious addict You may find something here that you can identify with Of the Times and Seasons Kevin Straub,2017-07-31 Four forty year generations have entirely passed since 1844 Each one has failed to take hold of the high calling of being in possession of the third angel s message the last message of mercy for a dying world The delay in the return of Christ must not be charged to God s account as though He is waiting for some celestial time clock to reach a pre determined mark Although God knows the day and the hour He has been waiting for us As we look around us at the rapid deterioration of our planet and witness the increasing fulfilment of the signs of His appearing we get a deep sense that we

are getting very close to the end perhaps even now entering into the time Jesus spoke of as the beginning of sorrows Are we the first generation of a new cycle of four that generation that will see the close of probation the time of trouble and the return of Christ Are there any Bible and Spirit of Prophecy evidences that point to it Read the first section of this book In the second section we take a panoramic view of the history of the movement giving an understanding of the causes of the long detour into the wilderness travelled by the professed people of God The prophet Joel points to a story that must be told a story of the wasting of four generations Joel 1 2 4 It is important that we hear this story If we do not know our history as it is we will continue to perpetuate its mistakes The message of this book is an alarm clock set to arouse God s people in the final moments of earth s history It is sure to shake the reader Accept it or reject it you won t be able to ignore it *Education of Cancer Healing Vol. VII - Heretics* Peter Havasi,2012 **Adventism and the American Republic** Douglas Morgan,2001

Adventism and the American Republic tells how their convictions led Adventist adherents to become champions of religious liberty and the separation of church and state all in the interest of delaying the fulfillment of a prophecy that foresees the abolition of most freedoms Through publication of Liberty magazine lobbying of legislatures and pressing court cases Adventists have been libertarian activists for more than a century and in recent times this stance has translated into strong resistance to the political agendas of Christian conservatives Drawing on Adventist writings that have never been incorporated into a scholarly study Morgan shows how the movement has struggled successfully to maintain its identifying beliefs with some modifications and how their sectarian exclusiveness and support of liberty has led to some tensions and inconsistencies BOOK JACKET *Education of Cancer Healing Vol. III - Ancients* Peter Havasi, *Seeking a Sanctuary* Malcolm Bull,Keith Lockhart,2007 The story of a large yet little known Protestant denomination The Great Creation Debate Brad Freckleton,2012-07 Why isn t the evolution of flight shown in the fossil record Bugs birds bats and dinosaurs flew and are shown fully formed in the fossil record but there are no animals with halfway wings in the fossil record leading from ground based animals to flying animals What is desperately wrong with the Grand Canyon if evolution is true Where are the massive signs of erosion between the sedimentary layers of the Grand Canyon if they were laid down a million years at a time Why does massive erosion only show up at the top Animals with well developed eyes show up suddenly in the fossil record as do flying animals It s the norm for plants and animals to show up in the fossil record with the same separations as we see in different types of living animals and plants today The second law of thermodynamics is a law of science that says everything left to its own will wear out run down It is a fundamental law of science So how did evolution accidentally go up How could a DNA molecule fumble together The cell needs DNA DNA needs the cell which came first Beneficial mutations also weaken in other areas and don t write evolutionary advancing DNA code Spiral galaxies which have the shape of a star fish that is spinning quickly throughout our universe like our Milky Way galaxy are supposed to be over 10 billion years old If they were over a billion years old they would lose their spiral arm shape The arms of our galaxy the Milky Way only show a

maximum age of 0.3 billion years. People want to know why they're here now and where they're going to go. They want surety of truth also. Read this book and see how well evolution holds up in all the sciences. Read this book and see if life can have meaning, direction and hope with surety. Peter Havasi, **Combat History of the Second Infantry Division in World War II**, U.S. Army, 2018-09-03

First published just a year after the end of the war, this is the story of the Second Infantry Division in World War II. It is the story of innumerable acts of fortitude and courage of individual sacrifice and devotion to duty under fire by a fighting division which has served with honor in two world wars. Closely following actual combat operations, brief editions of our participation in World War II were published. With the passage of time, the need for a more authentic and comprehensive history of this period has become evident. This book is designed to meet that need. This history shows that from D-1 to V-E Day, our Division, in the face of repeated fanatical enemy action, was employed constantly as a spearhead shock division and that in this role it maintained unblemished its proud record of never having failed to take its objective nor of having relinquished ground so gained. During operations, we were concerned with our immediate task. Now, in the light of subsequent events and broader perspective, the importance to the nation and to our army of our successes becomes increasingly evident.
