

Acids & Bases: Conjugate Acid-Base Pair Review

Goal – The student will be able to identify the acid, base, conjugate acid and conjugate base in an acid – base reaction.

Background: An acid is defined as a proton (H^+) donor while a base is a proton acceptor. The substance that is produced after an acid has donated its proton is called the **conjugate base**, while the substance formed when a base accepts a proton is called the **conjugate acid**. The conjugate acid can donate a proton to a conjugate base (in the reverse rxn) to reform the original reactants.

In the reaction above HF is the acid and H_2O is the base. The HF has given a proton to the H_2O , forming H_3O^+ and F^- . Since the product H_3O^+ can donate a proton back to F^- , the H_3O^+ is labeled the conjugate acid, while F^- is the conjugate base.

Example: Write an equation that shows NH_3 reacting with HCl . Label the acid, base, conjugate acid, and conjugate base.

Since the HCl donates the H^+ to the NH_3 , the HCl is the acid, the NH_3 is the base, resulting in NH_4^+ labeled as the conjugate acid, and the Cl^- as the conjugate base.

Practice: Label the acid, base on the reactant side of each of the following equations, and label the products as the conjugate acid and conjugate base.

- $OH^- + HCN \rightleftharpoons H_2O + CN^-$
- $HCO_3^- + OH^- \rightleftharpoons H_2O + CO_3^{2-}$
- $HCO_3^- + HCl \rightleftharpoons H_2CO_3 + Cl^-$
- $NH_4^+ + H_2O \rightleftharpoons NH_3 + H_3O^+$
- $HSO_4^{2-} + H_2O \rightleftharpoons OH^- + H_2PO_4^-$

Fill in the following table.

	Acid	Base	Conjugate Acid	Conjugate Base	Equation
1.	HNO_3	H_2O			$HNO_3 + H_2O \rightleftharpoons NO_3^- + H_3O^+$
2.			H_2O	CHO_3^-	
3.					$S^{2-} + H_2O \rightleftharpoons OH^- + HS^-$

9. Write an equation that shows the reaction of ammonia (NH_3) with hydrobromic acid (HBr). Label the acid, base, conjugate acid & conjugate base.

10. Write an equation that shows the reaction of phosphate ion (PO_4^{3-}) with hydronium ion (H_3O^+). Label the acid, base, conjugate acid & conjugate base.

Prescribing Skills Workbook Daniel Norton, Nicholas Norton, Jane Caisley, Rosie Furner, Elizabeth Hamilton, 2014-05-30

Prescribing medications safely is a cornerstone of clinical practice but students receive little or no teaching in the practicalities of prescribing. Instead they are often left to learn on the ward which inevitably leaves gaps in their knowledge. Unsurprisingly prescribing errors among junior doctors are common and can cause significant harm to patients. This is a cause for concern with the GMC and a potential solution in the form of a national exam has been proposed. *Prescribing Skills Workbook* is designed to help students and junior doctors bridge the gap between understanding the science of pharmacology and accurately writing a prescription on a patient's drug chart. The workbook format offers an ideal way to practice by completing a series of realistic life size charts in response to a clinical scenario. The book features 45 exercises each one carefully chosen to test the reader's grasp of a key principle such as management of the patient on warfarin. Each exercise begins with a short scenario, next the reader is invited to complete a chart based on the details in the case, then follows an answer section containing a correctly completed chart together with a summary of the main clinical and educational aspects of the exercise. **Key Points** A unique resource for medical students and foundation doctors to improve their understanding of the principles of safe prescribing and practice the physical act of filling out a drug chart correctly. 45 blank hospital charts replicate the experience of completing a realistic life size prescription with 45 corresponding charts filled out correctly to enable the reader to compare, identify and rectify errors. **DRUGCHARTS** checklist provides systematic framework for accurate prescribing by highlighting the key items to consider in each case. **Key points** boxes highlight the main learning objectives in each exercise. **Short introductory chapter** includes tips for safe prescribing.
