Christian Lammerts, 2018-08-31 Burma and neighboring areas of Southeast Asia comprise the only region of the world to have developed a written corpus of Buddhist law claiming jurisdiction over all members of society Yet in contrast with the extensive scholarship on Islamic and Hindu law this tradition of Buddhist law has been largely overlooked In fact it is commonplace to read that Buddhism gave rise to no law aside from the vinaya or monastic law In Buddhist Law in Burma D Christian Lammerts upends this misperception and provides an intellectual and literary history of the dynamic jurisprudence of the dhammasattha legal genre between the thirteenth and nineteenth centuries Based on a critical study of hundreds of little known surviving dhammasattha and related manuscripts Buddhist Law in Burma demonstrates the centrality of law as a crucial discipline of Buddhist knowledge in precolonial Southeast Asia Composed by lay and monastic jurists in prose and verse in Pali Burmese and other regional vernaculars dhammasattha were intended for use by judges to guide the adjudication of legal disputes Lammerts argues that there were multiple sometimes contentious modes of reckoning Buddhist jurisprudence and legal authority in the region and assesses these in the context of local cultural textual and ritual practices Over time the foundational jurisprudence of the genre underwent considerable reformulation in light of arguments raised by its critics bibliographers and historians resulting in a reorientation from a cosmological to a more positivist conception of Buddhist law and legislation that had far reaching implications for innovative forms of dhammasattha

related discourse on the eve of British colonialism Buddhist Law in Burma shows how despite such textual and theoretical transformations late precolonial Burmese jurists continued to promote and justify the dhammasattha genre and the role of law generally in Buddhism as a vital aspect of the ongoing effort to protect and preserve the s sanna of Gotama Buddha The book will be of value to students and scholars interested in the rich legal intellectual and cultural histories of Buddhism in Burma and Southeast Asia or in the historical intersections of law and Buddhism *Oxford EAP Elementary/A2 Student Book* Edward de Chazal, John Hughes, 2015-08-13 Oxford English for Academic Purposes offers a specialist course covering listening speaking and reading in key areas of academic life such as lectures presentations and textbooks The course is consistent with levels A2 to C1 of the Common European Frame of Reference for the teaching of foreign languages Great downloadable resources to support you when using Oxford English for Academic Purposes can be found at <https://elt.oup.com/student/oxfordeap>

Life After Privatization Raj S. Chari, 2015 *Life After Privatization* offers a refreshing and original theoretical conceptualization of what happened to state-owned enterprises after they were privatized from the late 1970s onwards Some privatized firms have become today's European and global giants Alphas merging with or acquiring other firms whereas other firms Betas have been taken over by Alphas or other sectoral leaders The book raises questions such as which privatized firms in the airline automobile and the electricity sectors in the UK France Germany Italy and Spain are Alphas and Betas today And why Building on a variety of themes from both Political Science and Business Studies it considers a comprehensive set of explanations both internal and external to the firm to analyse why a firm may become an Alpha or a Beta The evidence shows that while internal factors are

important the more external political factors are necessary and sufficient to explain why a firm becomes an Alpha or a Beta This includes the impact of liberalization the roles of states and the actions of regulators that are lobbied by firms Based on exhaustive evidence *Life After Privatization* concludes with a novel inductive theory which offers a significant step forward for social science scholars and practitioners understanding of the politics businesses face in global markets
