 neutral or negatively charged molecules This book offers a series of investigative inorganic laboratories approached through  
 systematic coordination chemistry It not only highlights the key fundamental components of the coordination chemistry field  
 it also exemplifies the historical development of concepts in the field In order to graduate as a chemistry major that fills the  
 requirements of the American Chemical Society a student needs to take a laboratory course in inorganic chemistry Most  
 professors who teach and inorganic chemistry laboratory prefer to emphasize coordination chemistry rather than attempting  
 to cover all aspects of inorganic chemistry because it keeps the students focused on a cohesive part of inorganic chemistry  
 which has applications in medicine the environment molecular biology organic synthesis and inorganic materials
