Slices From A Peculiar Pie:

Planes, Passports and Porkie Pies - Slice One Mike Clarke, 2016-03-10 This book is written for all those men and women of every rank and some now dead who laboured wholly unsung often abused and largely in vain in the United Kingdom's old Immigration Service to maintain the country's border controls Mike Clarke worked for 18 years in Immigration Control in London's larger airports the last 9 as a Chief Immigration Officer In his time there he encountered every scenario you could imagine and some you'd never dream of Planes Passports and Porkie Pies Slice One details the ups and downs of his working life queues and crises joy and despair cock ups punch ups forgers robbers liars lovers thugs drugs and always the poorest of the poor Wait I hear you ask in probable shocked disbelief when you've read on a bit can these stories really be true Well all I can say is that every tale barring a number of minor changes to protect both the innocent and the part guilty not least myself is as accurate as my fallible memory allows Join Mike as he recounts just some of his more memorable moments from a man wearing a suit filled with 80 000 cash to his part in the truly shocking sudden death of the Russian Atomic Clock Planes Passports and Porkie Pies is a hilarious memoir that will particularly appeal to those familiar with the immigration sector as well as anyone who has ever suffered at the hands of mindless bureaucracy **The End of**

Trauma George A. Bonanno, 2021-09-07 With groundbreaking research on the psychology of resilience Adam Grant a top expert on human trauma argues that we vastly overestimate how common PTSD is in and fail to recognize how resilient people really are After 9 11 mental health professionals flocked to New York to handle what everyone assumed would be a flood of trauma cases Oddly the flood never came In The End of Trauma pioneering psychologist George A Bonanno argues that we failed to predict the psychological response to 9 11 because most of what we understand about trauma is wrong For starters it's not nearly as common as we think In fact people are overwhelmingly resilient to adversity What we often interpret as PTSD are signs of a natural process of learning how to deal with a specific situation We can cope far more effectively if we understand how this process works Drawing on four decades of research Bonanno explains what makes us resilient why we sometimes aren't and how we can better handle traumatic stress Hopeful and humane The End of Trauma overturns everything we thought we knew about how people respond to hardship **Aunt Kate books on domestic and**
