Skeletons Of A Murder:

The Bones of Murder Julius Falconer, 2009-11-30 While renovating the derelict twelfth century chapel attached to their new house in rural Worcestershire in 1972 Grace and Benjamin Hothersall uncover three skeletons which have clearly been the victims of murder When news of this reaches the newspapers a series of anonymous letters and telephone calls begins at the Hothersall residence Clearly the murders are of not just historical interest since someone very much alive seems determined to prevent further disclosures Inspector Wickfield finds himself involved in a complex and baffling investigation which embraces local witchcraft a student of the cabala abduction a boy s curse a hidden will a stranger in Cornwall death in a railway carriage and a Latin textbook of 1563 It nearly proves too much for him but light dawns eventually and leads to a tense trial which brings the case to a close The narrative almost fails to see the light of day because the inspector objects to its style and instructs Mr Falconer to destroy the typescript Fortunately for us Mr Falconer has more sense than the inspector As always the reader is given as much information as the detectives and is challenged to spot the crucial clue in the labyrinth as Wickfield must Julius Falconer s sure touch ensures another page turner for the discerning reader in which intelligent stimulation vies with sheer entertainment for pride of place Book reviews online PublishedBestsellers website

Buss,2006-04-25 As acclaimed psychological researcher and author David Buss writes People are mesmerized by murder It commands our attention like no other human phenomenon and those touched by its ugly tendrils never forget Though we may like to believe that murderers are pathological misfits and hardened criminals the vast majority of murders are committed by people who until the day they kill would seem to be perfectly normal David Buss's pioneering work has made major national news in the past and this provocative book is sure to generate a storm of attention *The Murderer Next Door* is a riveting look into the dark underworld of the human psyche an astonishing exploration of when and why we kill and what might push any one of us over the edge A leader in the innovative field of evolutionary psychology Buss conducted an unprecedented set of studies investigating the underlying motives and circumstances of murders from the bizarre outlier cases of serial killers to those of the friendly next door neighbor who one day kills his wife Reporting on findings that are often startling and counterintuitive the younger woman involved in a love triangle is at a high risk of being killed he puts forth a bold new general theory of homicide arguing that the human psyche has evolved specialized adaptations whose function is to kill Taking readers through the surprising twists and turns of the evolutionary logic of murder he explains exactly when each of us is most at risk both of being murdered and of becoming a murderer His findings about the high risk situations alone will be news making Featuring gripping storytelling about specific murder cases including a never used FBI file of more than 400 000 murders and a highly detailed study of 400 murders conducted by Buss in collaboration with a forensic psychiatrist and a pioneering investigation of homicidal fantasies in which Buss found that 91 percent of men and 84 percent of women have had at least one such vivid fantasy *The Murderer Next Door* will be necessary reading for those who have been fascinated by books on profiling lovers of true crime and murder mysteries as well as readers intrigued by the inner workings of the human mind **Bones** Douglas Ubelaker,Douglas H.
