

Skittles Probability For Kids

Name: _____

Today we are going to learn about probability with skittles. Take a bag (any size) and fill out the graph below.

What color is your favorite? Green

	10 random draws	20 random draws	Total	
Red	3 30%	6 30%	18	18%
Purple	2 20%	5 25%	15	14%
Green	3 30%	6 30%	31	30%
Orange	1 10%	5 25%	23	22%
Yellow	1 10%	1 5%	17	16%
Total	10	20	104	

Did you get a more accurate sample of what was in the bag with 10 draws or 20? 20. The larger the sample size, the more accurately it reflects the entire group.

How likely were you to draw your favorite color?

$$\frac{\text{Number of your favorite color}}{\text{Total Number of Skittles}} = \frac{31}{104} = 30\%$$

Researchers analyze data using graphs. Graph the data from your total column onto the graph below.

Sport Rules Ava Thompson, AI, 2025-01-31 Sport Rules takes readers on a captivating journey through the world of non mainstream athletics exploring how different cultures have developed unique sporting traditions that reflect their values

geography and social structures From Finland's wife carrying competitions to Afghanistan's buzkashi matches played with goat carcasses this comprehensive guide examines over fifty unconventional sports across six continents revealing the fascinating intersection of cultural identity and athletic competition The book masterfully organizes its exploration into three distinct sections traditional cultural sports modern alternative sports and hybrid competitions Through detailed analysis supported by historical documents interviews and official rulebooks readers discover how basic athletic concepts adapt to various cultural contexts while maintaining core competitive principles Notable examples include the ancient Mexican pelota which shares fundamental elements with modern racquet sports while preserving its ceremonial significance What sets this work apart is its ability to bridge academic research with accessible presentation featuring detailed diagrams photographs and firsthand accounts that bring these unique sports to life The book demonstrates how alternative sports contribute to community cohesion and cultural preservation while adapting to modern standardization pressures Whether for sports enthusiasts cultural researchers or education professionals this guide offers valuable insights into how human competition manifests across different societies while maintaining surprisingly consistent fundamental patterns

Football, Community and Social Inclusion Daniel Parnell, David Richardson, 2017-10-02 This special issue addresses the complex reality of English community football organisations including Football in the Community FitC schemes which have been attending to social agendas such as social inclusion and health promotion The positioning of football as a key agent of change for this diverse range of social issues has resulted in an increase in funding support Despite the increased availability of funding and the apparent willingness of football clubs to adopt such an altruistic position within society there remains limited empirical evidence to substantiate football's ability to deliver results This book explores the current role of a football and football clubs in supporting and delivering social inclusion and health promotion to its community and seeks to examine the philosophical political environmental and practical challenges of this work The power and subsequent lure of a football club and its brand is an ideal vehicle to entice and capture populations that normally ignore or turn away from positive social and or health behaviours The foundations of such a belief are examined outlining key recommendations and considerations for both researchers and practitioners attending to these social and health issues through the vehicle of football This book was originally published as a special issue of Soccer Society

Speaking in Other Voices Joan Gross, 2001-01-01 Linking actual instances of language use with structures of social power in francophone Belgium Gross outlines the history and contemporary configuration of rod puppetry in Liège The analysis of this working class performance art moves between what occurs on and off stage As puppeteers speak in other voices sometimes in Walloon and sometimes in French they create a sociolinguistic model based on 19th century renditions of medieval texts the voices of past puppeteers and the language that surrounds them The high level of linguistic reflexivity created by the regional language movement has led to frequent metalinguistic and metapragmatic commentaries within the puppet shows This complex speech genre embedded in social

context shows the influence of identity struggles from local class oppositions to imperial designs abroad Keeping a tight focus on language *Speaking in Other Voices* examines the process of entextualization and recontextualization as stories of war and religion are transmitted to succeeding generations
