Type 1 (Ionic) Bonding Worksheet

For each pair of elements below draw electron dot structures showing the valence electrons in each atom. Then draw arrows to show where the valence electrons will go during a chemical reaction. Write the name of each type 1 ionic compound. Finally, fill in the n table below each reaction. Refer to the sample shown.

Reactions- draw a picture showing each reaction & name the ionic compound	Atoms	Valence electrons	Electron transfer from/to each atom	Ions formed in the product
1) $\text{Li} + \text{F} \Rightarrow \text{LiF}$ Name the ionic compound – lithium fluoride	Li	1	Li loses 1 e-	Li^{1+}
	F	7	F gains 1 e-	F^{1-}
2) $\text{Ca} + \text{O} \Rightarrow \text{CaO}$ Name the ionic compound – calcium oxide	Ca	2	Ca loses 2 e-	Ca^{2+}
	O	6	O gains 2 e-	O^{2-}
3) $\text{Be} + \text{F} \Rightarrow \text{BeF}_2$ Name the ionic compound - _____				
3) $\text{Mg} + \text{S} \Rightarrow \text{MgS}$ Name the ionic compound - _____				
4) $\text{K} + \text{F} \Rightarrow \text{KF}$ Name the ionic compound - _____

practical guide to improving academic outcomes for all students is an informative guidebook that explores the wealth of evidence behind and the benefits of test enhanced learning spaced retrieval practice and personalisation Detailing the most up to date research into improving learning and retention it takes us on a journey into test enhanced learning spaced retrieval practice motivation metacognition and personalisation In so doing the book provides a blueprint for all teachers and schools to improve the academic outcomes of their students and to achieve this in ways that improve the motivation of learners and reduces the workload for teachers Kristian Still has been developing these ideas with his classes for many years and has achieved considerable success in terms of the direct learning gains and improved assessment grades of his pupils and the indirect gains in students growing confidence in lessons with a wider group of pupils contributing to class and improved classroom behaviour Consequently students are finding greater comfort in class and experiencing less pressure or underpreparedness when a question is asked The book is supported by the free Remembermore app which uses digital

flashcards as an aid to deliver the learning gains of personalised spaced retrieval practice providing teachers with insights into the effectiveness of their own teaching It also contains a number of practical case studies from teachers using these techniques and the app to produce great results in their schools Spaced retrieval practice is a highly effective but counter intuitive revision technique in that it involves forgetting and relearning knowledge Test Enhanced Learning provides a blueprint for motivating students to adopt this technique in favour of seemingly easier but less effective techniques such as re reading Moreover the Remembermore app does most of the convincing for you It is a tool not only to provide the flashcards for retrieval practice but also to demonstrate the power of the technique to pupils The book goes a step beyond mere retrieval practice offering a fresh approach to test enhanced learning both pretesting and post testing supported by real classroom based routines that have been tried and tested by both Primary and Secondary teachers across a range of subjects Exploring the research behind test enhanced learning it reveals that both pretesting and post testing retrieval practice offers improved memorisation and secures long term learning Suitable for all teachers in all settings
