**Broken Irelands** Mary M. McGlynn, 2022-10-17 While the national narrative coming out of Ireland since the 2008 economic crisis has been relentlessly sanguine fiction has offered a more nuanced perspective from both well established and emerging authors In *Broken Irelands* McGlynn examines Irish fiction of the post crash era addressing the proliferation of writing that downplays realistic and grammatical coherence Noting that these traits have the effect of

diminishing human agency blurring questions of responsibility and emphasizing emotion over rationality McGlynn argues that they reflect and respond to social and economic conditions during the global economic crisis and its aftermath of recession austerity and precarity Rather than focusing on overt discussions of the crash and recession McGlynn explores how the dominance of an economic worldview including a pervasive climate of financialized discourse shapes the way stories are told In the writing of such authors as Anne Enright Colum McCann Mike McCormack and Lisa McNerney McGlynn unpacks the ways that formal departures from realism through grammatical asymmetries like unconventional verb tenses novel syntactic choices and reliance on sentence fragments align with a cultural moment shaped by feelings of impotence and rhetorics of personal responsibility
