EVO Teachers Guide (Rodger W. Bybee, John Feldman, 2012) In this film, you will learn among other things that evolution and religion are indeed compatible ways of looking at the world that Darwin was a creationist before he was an evolutionist and that cooperation is just as important as competition in the struggle for existence. [Case Method and the Arabic Teacher](#) (Steven Berbeco, 2018-11-15) *Case Method and the Arabic Teacher: A Practical Guide* compiles original case studies that address the unique challenges of teaching Arabic at the high school level. The book's engaging and accessible classroom scenarios reflect the experiences of a diverse group of Arabic teachers working in a variety of educational settings ranging from elite private schools to large public schools with low-income student populations. In the case studies, teachers offer compelling accounts of the political, institutional, and curricular issues they encountered not only in their classrooms but also in their wider schools and communities. Combining research-based methodology with firsthand pedagogical narratives, this book is a valuable resource for teachers, teacher trainers, researchers, and other stakeholders who support the teaching of Arabic. It proposes integrating CALL and DH into PBL to form a Digital Humanities-Augmented Technology-Enhanced Project-Based Language Learning (DATEPBL) approach to transform student learning. By combining DH pedagogy and CALL technology with PBL, the approach takes advantage of their synergies, which enables instructors to help students develop linguistic and cultural competency as well as 21st-century skills. Case studies and best practices from experienced Chinese language teachers are presented to demonstrate the value of the DATEPBL approach. This is the first volume that covers all three fields and makes a strong case for the importance of incorporating CALL, DH, and PBL for effective language learning. Written for professionals in language education, including educators, curriculum designers, and developers, graduate students,
