

1 Twelve units and six breakouts

Ace 1 contains twelve units and six breakouts.

Each unit starts with a productive can do-statement and ends with a productive language task (writing, speaking or spoken interaction). All the required vocabulary and grammar components are integrated into these twelve units. Each breakout starts with a receptive can do-statement. In our six breakouts we focus on a longer text (reading, listening or watching) and we develop the receptive skills.

Ace 1 covers all the curriculum objectives of KOV, GO! and OVSG. We provide three different year plans depending on the number of periods a week.

2 International, intercultural and not stereotypical

Our book deals with various English and American topics, but also focuses on schools, children's bedrooms and breakfasts around the world, from South-Africa to New Zealand and from India to Brazil.

Ace 1 is also not stereotypical. You can read about a female DJ, a male fashionista, a female plumber, reconstituted families, traditional and homosexual couples. By dealing with these topics we implicitly contribute to intercultural education and we avoid our students starting to categorise people. It helps our students to develop their identity taking the dynamic aspect of culture and society into account.

3 The objectives of a unit

Always start preparing your unit by reading the first page very carefully. The first page of each unit contains a picture, a title and two boxes.

The orange box contains the main objective of the unit. The main objective always starts with the words 'I can ...'. This is precisely what your students

should be able to do at the end of the unit when doing/completing the language task. So actually, the language task is putting this main objective into practice. This means that we start from the main objective on the very first page and that we finish our unit with the language task.

The green box contains the knowledge objectives that are necessary to meet our main objective. These knowledge objectives are always introduced by the words 'To do this, I can ...'. These objectives are taught gradually. Each unit contains two (or three) lessons and in each lesson, we focus on some of these objectives. You can actually find these objectives in the green box at the top of the first page of each lesson.

To make the main objective more specific, you can read the context of the language task with your students before starting the unit.

4 The language tasks

We started writing the book by listing and writing the language tasks. These language tasks play a pivotal role in our book. They are actually a contextual translation of our objectives. We start from our objectives and work towards our language task.

All our language tasks are designed in a similar way:

- **Up to you!** (oriënteren - O)
The language tasks always start with a description of the context. They are authentic and realistic, which means that our students should recognise and believe the context.
- **What do you have to do?** (oriënteren - O)
This is actually the assignment. In different steps the students find out what we expect them to do. The students also find an icon referring to the productive skill that should be practised (writing, speaking or spoken interaction)
- **Be prepared!** (voorbereiden - V)
We always assist the students in
