Effective Early Years Education Edwards, Anne, Knight, Peter, 1994-12-01. In this concise and accessible guide the authors are sympathetic to the particular demands of teaching three to eight year olds and offer practical solutions to the complex issues that are currently faced by early years educators. In recognizing the demands on practitioners they provide new and challenging frameworks for an understanding of the practice of teaching young children and draw upon international research to offer a sound model of early years subject structured teaching which has the quality of children's learning at its centre. Their aim is to support teacher expertise through stimulating teachers thinking about children's development, motivation, ways of learning and the subjects they teach. These topics are clearly set in the complex institutional settings in which practitioners work and ways of taking and evaluating action are offered.

Hermeneutics and Catechesis Robert J. Hurley, 1997. This work examines aspects of a religious education program published by Paulist Press in the 1960s and 1970s, the 'Come to the Father' series. This is the only study of this major catechetical series. The author examines the interpretation of the Bible in a confessional setting and explores the history of the modern catechetical renewal in Canada and beyond. The author also critiques the way in which the 'Come to the Father' series exploits the reader's experience in its interpretation of the Bible.
