Shakespeare with Purpose shows teachers how to approach Shakespeare's works as vehicles for collaborative exploration to develop intentional frames for discovery and to release the texts from over-determined interpretations. In other words, this book presents how to teach Shakespeare's plays as living, breathing and evolving texts. *How and Why We Teach Shakespeare* Sidney Homan, 2019-05-15. In *How and Why We Teach Shakespeare*, 19 distinguished college teachers and directors draw from their personal experiences and share their methods and the reasons why they teach Shakespeare. The collection is divided into four sections: studying the text as a script for performance; exploring Shakespeare by performing; implementing specific techniques for getting into the plays and working in different classrooms and settings. The contributors offer a rich variety of topics, including working with cues in Shakespeare such as line and mid-line endings that lead to questions of interpretation; seeing Shakespeare's stage directions and the Elizabethan playhouse itself as contributing to a play's meaning; using the gamified learning model or cue cards to get into the text; thinking of the classroom as a rehearsal; playing the Friar to a student's Juliet in a production of *Romeo and Juliet*; teaching Shakespeare to inner-city students or in a country torn by political and social upheavals. For fellow instructors of Shakespeare, the contributors address their own philosophies of teaching, the relation between scholarship and performance, and perhaps most of all, why in this age the study of Shakespeare is so important.
