The Guru Mantra of Trading by Suvadeep Halder | The Secret of Technical Analysis | Suvadeep Halder, 2025-08-08 The Guru Mantra of Trading is written to help you truly understand how the stock market works. Looking to learn chart patterns and market trends? Start with top technical analysis books for trading. Choosing the best technical analysis book can boost your skills and help you trade with confidence. If you've ever felt confused by complex charts or struggled to find the right trade, this book will guide you step by step. This trading book is designed for both beginners and those who already have some knowledge but want to go deeper into technical analysis. You'll learn how to read price action, understand candlestick patterns, use indicators properly, and manage your risk smartly. This stock market book is based on real experience from years of market study and trading, not just theory. It also includes a simple coding section at the end to help you build a basic system for choosing stocks. This practical approach makes it easier to apply what you learn directly in the market. Whether you're starting your trading journey or looking to improve your current strategy, this book gives you the tools and confidence to take the next step. Written in clear language without unnecessary jargon, it focuses on what actually works in the real market. If you're serious about learning technical analysis and making better trading decisions, this book is a great place to start.

A Critical Analysis of National Apprenticeship Training Scheme (NATS) and Its Employability on Technical Graduates: A Case Study of the Eastern Region. DR. S.M. EJAZ AHMAD, 2024-12-17 Human resource development policies place a strong emphasis on training and skill improvement. The scale of India's present technical training infrastructure is less than what is needed. There is also a sizable skill gap between what the market requires in terms of skills and what graduate and diploma programs have to offer. Not only is it difficult to establish a significant quantitative expansion of skill training facilities, but it's also difficult to improve their quality, which is a work that is just as significant. The institutional level's capacity for educational and training programs is insufficient to meet the rising demand for the necessary skill sets, knowledge, and experience. Apprenticeships have great promise in fostering our youths, starting at the school level, especially with several industries experiencing significant skills deficits in the future. The National Apprenticeship Training Scheme (NATS) in India, which promotes learning by earning and learning by doing, is a potent tool for skill development. Important changes have been made to The Apprentices Act, 1961, to help freshly graduated students who are joining the workforce receive industrial training and exposure to contemporary industrial procedures. The BOAT Boards of Apprenticeship Training, situated in Mumbai, Kanpur, Chennai, and the BOPT Board of Practical Training headquartered in Kolkata, are the four independent regional organizations through which the Ministry of Education (MoE) implements the program. Despite its significance and the crucial role that skill development plays in the economy, it has been discovered that the topic has not recently been investigated. Therefore, it was crucial to investigate the facts of the apprentices' job and training experiences and the business community's opinions regarding NATS and the subject matter of such a scheme. Additionally, it will assist

policymakers academicians and industrialists in comprehending the gaps and choosing their future course of action A CRITICAL ANALYSIS OF THE NATIONAL APPRENTICESHIP TRAINING SCHEME NATS ON EMPLOYABILITY OF TECHNICAL GRADUATES A CASE STUDY OF THE EASTERN REGION has been published The report includes data from numerous stakeholders as well The main areas of focus for the investigation were skill and employability development the role of industries in closing trainees skill gaps the level of awareness about NATS amongst the passing graduates and successful industry institute collaboration through set schedules targeted group discussions and spontaneous dialogues
