I Explain a Few Things Pablo Neruda, 2015-09 Laughter is the language of the soul, Pablo Neruda said. Among the most lasting voices of the most tumultuous in his own words, the saddest century, a witness and a chronicler of its most decisive events, he is the author of more than thirty-five books of poetry and one of Latin America's most revered writers, the emblem of the engaged poet, an artist whose heart always with the people is literally consumed by passion. His work, oscillating from epic meditations on politics and history to intimate reflections on animals, food, and everyday objects, is filled with humor and affection. This bilingual selection of more than fifty of Neruda's best poems, edited and with an introduction by the distinguished Latin American scholar Ilan Stavans and brilliantly translated by an array of well-known poets, also includes some poems previously unavailable in English.

I Explain a Few Things distills the poet's brilliance to its most essential and illuminates Neruda's commitment to using the pen as a calibrator for his age.

The Torchlight List Jim Flynn,2013-11-01 In today s world it seems that everywhere we turn we are saturated with book recommendations from talk shows magazines radio shows friends and top ten lists But which books are really the best and what effects do the books we read have on our intelligence The Torchlight List has the answers A professor for over forty years Jim Flynn was concerned when he saw that his students were reading less and less He decided to compile a list of recommendations for them which expanded to include two hundred titles that transport the reader into a magic realm of knowledge and imagination The books must also shed light on human

psychology history science or philosophy the concepts needed to comprehend the complexities of the modern world The list named in honor of Flynn's uncle who read by torchlight onboard a ship during WWI is divided by geographical area Flynn offers a brief explanation on the history each book deals with and comments on the plots with humor and wit He bets each reader that at least one of the five first titles will change his or her life This is a book that will inspire you to reread books you love and to discover and relish many new ones The Michigan Alumnus, 2003 In v 1 8 the final number consists of the Commencement annual Pablo Neruda Pablo Neruda, 1985 Fire and Blood Enzo Traverso, 2017-03-28 Europe's second Thirty Years War an epoch of blood and ashes Fire and Blood looks at the European crisis of the two world wars as a single historical sequence the age of the European Civil War 1914 1945 Its overture was played out in the trenches of the Great War its coda on a ruined continent It opened with conventional declarations of war and finished with unconditional surrender Proclamations of national unity led to eventual devastation with entire countries torn to pieces During these three decades of deepening conflicts a classical interstate conflict morphed into a global civil war abandoning rules of engagement and fought by irreducible enemies rather than legitimate adversaries each seeking the annihilation of its opponents It was a time of both unchained passions and industrial rationalized massacre Utilizing multiple sources Enzo Traverso depicts the dialectic of this era of wars revolutions and genocides Rejecting commonplace notions of totalitarian evil he rediscovers the feelings and reinterprets the ideas of an age of intellectual and political commitment when Europe shaped world history with its own collapse **Shame, Fame, and the Technological Mentality** Dustin Peone, 2021-03-15 In Shame Fame and the Technological Mentality Dustin Peone interrogates the modern human condition Peone argues that shame and fear are constitutive of social order but that these affects have been undermined by contemporary ideology This subversion has created a novel breed of shameless and fearless human beings with myriad social consequences Peone next demonstrates an associated change in the role of fame in society where once the desire for fame was tied to immortality through civic virtue this connection has eroded and fame is no longer connected to excellence Finally Peone analyzes the hegemonic role of technological thinking and its responsibility in accelerating these processes cautioning against the deification of technology In response to the technological mentality for navigating the modern world Peone argues instead for an ethics of prudence and a doctrine of humor *Your Neighbor's Hymnal* Jeffrey F. Keuss, 2011-06-10 Your Neighbor's Hymnal provides a winsome and thoughtful exploration of popular music from rock to hip hop to metal to soul as a vital source contemporary culture continues to go to learn about faith hope and love Where some Christians have kept their focus only on a hymnal found in their church or formed by the genre of Contemporary Christian Music Keuss argues that your neighbor's hymnal is filled with great music that God is using and deserves a deeper listen Offering forty songs spanning time and genres each section includes a number of representative reflections on the history and artist that created the song reflections on its lyrical content and theological and biblical connections that will hopefully show some ways in which the song illustrates how

your neighbor is hearing seeking and finding faith hope and love through popular music This book can be approached in a number of ways As an introduction to this stream of popular culture the overviews and short introductions to each song provide a glossary useful in courses needing texts in theology and popular culture For use with church groups whether adult bible studies or youth groups Your Neighbor s Hymnal provides points of reference for connecting key aspects of the Christian faith with illustrations readily available for discussion For interested music listeners the book will provide a means of giving voice to their own musings on faith As with faith good music is meant to be shared and Your Neighbor s Hymnal offers a wonderful opportunity to do both
