The Fear Index:

The Fear Index Robert Harris (romancier et journaliste),2011 The Fear Index Robert Harris,2012-01-31 At the nexus of high finance and sophisticated computer programming a terrifying future may be unfolding even now Dr Alex Hoffmann s name is carefully guarded from the general public but within the secretive inner circles of the ultrarich he is a legend He has developed a revolutionary form of artificial intelligence that predicts movements in the financial markets with uncanny accuracy His hedge fund based in Geneva makes billions But one morning before dawn a sinister intruder breaches the elaborate security of his lakeside mansion and so begins a waking nightmare of paranoia and violence as Hoffmann attempts with increasing desperation to discover who is trying to destroy him Fiendishly smart and suspenseful **The Fear Index** gives us a searing glimpse into an all too recognizable world of greed and panic It is a novel that forces us to confront the question of what it means to be human and it is Robert Harris s most spellbinding and audacious novel to date **The Fear Index** Reader's Digest Association,Robert Harris,Anthony Horowitz,Sandra Brown,Alan Titchmarsh,Reader's Digest Association Staff,2012 The Fear Index Robert Harris,2022-03-29 NOW A LANDMARK SKY MINI SERIES STARRING JOSH HARTNETT Could scarcely be more of the moment THE TIMES Harris is a master of pace and entertainment OBSERVER Nothing spreads like fear In the secretive inner circle of the ultra rich Alex Hoffmann is a legend He has developed an algorithm for playing the financial markets that generates billions of pounds and feeds on panic When one day his system is threatened by a terrifying intruder who breaches the elaborate security of his lakeside home his life becomes a waking nightmare of violence and paranoia But who is trying to destroy him And is it already too late There are moments when this book feels so up to date it could have been written next week spookily exciting EXPRESS **The Fear Index** is a frightening book of course as with its title it intends Harris has an excellent sense of pace TELEGRAPH *The Fear Index* Robert Harris,2012-08-21 High tech finance and sophisticated computer programming combine in this terrifying and fiendishly smart new novel from Robert Harris Dr Alex Hoffmann stays out of the public spotlight but within the secretive inner circles of the ultra rich he is a legend And now he has developed a revolutionary form of artificial intelligence that predicts movements in the financial markets with uncanny accuracy As a result his Geneva based hedge fund is poised to make billions But one morning before dawn a sinister intruder breaches the elaborate security of his lakeside mansion So begins a waking nightmare of paranoia and violence as Hoffmann attempts with increasing desperation to discover who is trying to destroy him Finance Fictions Arne De Boever,2018-03-06 Finance Fictions takes the measure of what it means to live in a world ruled by high finance by examining the tension between psychosis and realism that plays out in the contemporary finance novel When the things traded at the center of the economy cease to be things at all but highly abstracted speculations how do we come to see the real What sorts of narrative can accurately approach the actual workings of a neoliberal economy marked by accelerating cycles of market crashes economic and political crisis and austerity

Revisiting such twentieth century classics of the genre as Tom Wolfe's *Bonfire of the Vanities* and Bret Easton Ellis's *American Psycho* De Boever argues that the twenty first century is witnessing the birth of a new kind of realistic novel that can make sense of complex financial instruments like collateralized debt obligations credit default swaps and digital algorithms operating at speeds faster than what human beings or computers can record If in 1989 Wolfe could still urge novelists to work harder to tame the billion footed beast of reality today's economic reality confronts us with a difference that is qualitative rather than quantitative a new financial ontology requiring new modes of thinking and writing Mobilizing the philosophical thought of Quentin Meillassoux in the close reading of finance novels by Robert Harris Michel Houellebecq Ben Lerner and less well known works of conceptual writing such as Mathew Timmons *Credit Finance Fictions* argues that realism is in for a speculative update if it wants to take on the contemporary economy and if whose implications turn out to be deeply political Part literary study and part philosophical inquiry *Finance Fictions* seeks to contribute to a new mindset for creative and critical work on finance in the twenty first century
