The First Lie A Short Story English Edition:

Remembering the First World War Bart Ziino, 2014-12-05 Remembering the First World War brings together a group of international scholars to understand how and why the past quarter of a century has witnessed such an extraordinary increase in global popular and academic interest in the First World War both as an event and in the ways it is remembered. The book discusses this phenomenon across three key areas. The first section looks at family history, genealogy and the First World War seeking to understand the power of family history in shaping and reshaping remembrance of the War at the smallest levels as well as popular media and the continuing role of the state and its agencies. The second part discusses practices of remembering and the more public forms of representation and negotiation through film, literature, museums, monuments and heritage sites focusing on agency in representing and remembering war. The third section covers the return of the War and the increasing determination among individuals to acknowledge and participate in public rituals of remembrance with their own contemporary politics. What for instance does it mean to wear a poppy on armistice remembrance day? How do symbols like this operate today? These chapters will investigate these aspects through a series of case studies. Placing remembrance of the First World War in its longer historical and broader transnational context and including illustrations and an afterword by Professor David Reynolds, this is the ideal book for all those interested in the history of the Great War and its aftermath.

The City, Second Edition James A. Clapp, 2014-02-10 *The City* is the best funniest, saddest and most thought provoking compilation ever assembled on the urban scene. James A. Clapp has arranged more than three thousand quotations, epigrams, epithets, verses, proverbs, scriptural references, witticisms, lyrics, literary references and historical observations on urban life from antiquity until the present. These quotes are drawn from the written and spoken words of more than one thousand writers throughout history. This volume with contributions from speakers, poets, song writers, politicians, philosophers, scientists, religious leaders, historians, social scientists, humorists, architects, journalists and travelers from and to many lands is designed to be used by writers, speechmakers, students and scholars on cities and urban life. Clapp's text is striking for its sharp contrasts of urban and rural life and the urbanization process in different historical times and geographical areas. This second edition includes four hundred new entries, updated birth dates and occupations of quoted authors and an expanded and updated introduction and preface. Clapp also added new introduction pages for each section containing pictures and unique quotations. The indexes have also been expanded to include more subjects and cities. The scope of this book is international including entries on most major and many minor cities of the world. It is noteworthy for its pleasures and as well as its insights.

Vladimir Nabokov Paul D. Morris, 2011-09-03 Vladimir Nabokov 1899-1977 the eminent Russian American writer and intellectual is best known for his novels though he was also the author of plays, poems and short stories. In this important new work Paul D. Morris offers a comprehensive reading of Nabokov's Russian and English poetry until now a neglected facet of his oeuvre. Morris' unique and insightful study re-

evaluates Nabokov's poetry and demonstrates that poetry was in fact central to his identity as an author and was the source of his distinctive authorial lyric voice After offering a critical overview of the multi-staged history of the reception of Nabokov's poetry and an extensive analysis of his poetic writing Morris argues that Nabokov's poetry has largely been misinterpreted and its place in his oeuvre misunderstood Through a detailed examination of the form and content of Nabokov's writings Morris demonstrates that Nabokov's innovations in the realms of drama the short story and the novel were profoundly shaped by his lyric sensibility

brought unexpectedly harsh criticism from China where Ang Lee was labelled a traitor in scathing internet critiques whilst the film's leading actress Tang Wei was banned from appearing on screen for two years. This book analyses Ang Lee's art of film adaptation through the lens of modern literary and film theory as well as featuring detailed readings and analyses of different dialogues and scenes, directorial and authorial decisions and intentions while at the same time confronting the intense political debates resulting from the film's subject matter. The theories of Freud, Lacan, Deleuze, Bataille and others are used to identify and clarify issues raised by the film related to gender, sexuality, eroticism, power, manipulation and betrayal. The themes of lust and caution are dealt with in conjunction with the controversial issues of contemporary political consciousness concerning patriotism and the Sino-Japanese War, complicated by divided historical experiences and cross-Taiwan Strait relationships. The contributors to this volume cover translation and adaptation, loyalty and betrayal, collaboration and manipulation, playing roles and performativity whilst at the same time intertwining these with issues of national identity, political loyalty, collective memory and gender. As such, the book will appeal to students and scholars of Chinese and Asian cinema and literature as well as those interested in modern Chinese history and cultural studies.
