The Flavian Amphitheatre John Henry Parker, 1876 **The Colosseum** Roberto Luciani, 1990 The Flavian Amphitheatre, Commonly Called the Colosseum at Rome. Its History & Substructures Compared with Other Amphitheatres John Henry Parker, 2024-06-08 Reprint of the original first published in 1876 **The Flavian amphitheatre, commonly called the Colosseum** John Henry Parker, 1876 **The Archaeology of Rome: The Flavian amphitheatre, commonly called the colosseum** John Henry Parker, 1876 *The Flavian Amphitheatre, Commonly Called the Colosseum at Rome* John Henry Parker, 2017-04-12 *The Archaeology of Rome: The Flavian amphitheatre, commonly called the Colosseum at Rome : its history and substructures compared with other amphitheatres* John Henry Parker, 1876 **The Archaeology of Rome** John Henry Parker, 1876 *The Flavian Amphitheatre, Commonly Called the Colosseum at Rome* John Henry Parker, 2015-08-04 Excerpt from *The Flavian Amphitheatre Commonly Called the Colosseum at Rome Its History and Substructures Compared With Other Amphitheatres* The great excavations carried on in this colossal building in the years 1874 and 1875 have thrown an entirely new light on its history These were made under the level of the ground at the foot of the podium which is the same as that of the original arena this large level space had been indifferently called the ground the floor the stage the area or the arena no one had any idea that the original pavement would be found 21 ft below that level and that the intervening space was filled with walls and passages dens for wild beasts places for lifts to send up men and dogs and animals and canals for water and several other contrivances for the use of the performers on the stage above for practically the arena was the stage on which the performances took place These excavations have enabled us to ascertain that this had been a boarded floor covered with sand or arena whence its name and that this floor could be moved and replaced in a short time at the word of the Emperor The evidence of this is brought out clearly in the present work Large corbels or brackets are provided for placing the boards upon when removed and keeping them out of sight of the people in the galleries they project from the wall below the podium in the passage over the dens We had all of us hitherto been taught that this enormous structure had been all built in ten years by the Flavian emperors this is the uniform modern history but no ancient author says so It is only one of the so called Roman Traditions which as I am obliged to repeat continually are nothing but the conjectures of learned men during the last three centuries especially Panvinus and his school in the seventeenth In the present instance it is evident that so far from having been all built in ten years it was more than a century about from first to last it was begun in the time of Sulla the Dictator by his step son Scaurus and is described by Pliny in his Natural History by the name of the insane work of Scaurus who was called insane because he spent such an enormous fortune upon the work equal to more than two millions sterling of modern money About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original
