The Movement Revisited:

The Prairie Agrarian Movement Revisited Kenneth Murray Knuttila, 2007 The formation of the Territorial Grain Growers Association in 1901 was not the only important event in the early history of what has come to be known broadly as the agrarian movement in the Canadian prairies but it was a defining moment in some respects Arguably it signalled the formation of an agrarian class but at least it was an indicator of an awakening of a democratic consciousness among family farmers Ultimately the Association provided a venue for analysis and critique the development of strategies and tactics and of course the nurturing of leadership and organizational forms that would have a profound influence upon politics and the state in the three prairie provinces and the Dominion as well as the creation of co operatives and other forms of direct action These eighteen essays honouring the 100th anniversary in 2001 of the formation of the TGGA explore important aspects of the historical legacy of the agrarian movement and contemplate their relevance to the current setting for the rural prairies

The Chicago Freedom Movement Mary Lou Finley, Bernard LaFayette Jr., James R. Ralph Jr., Pam Smith, 2016-04-22 Six months after the Selma to Montgomery marches and just weeks after the passage of the Voting Rights Act of 1965 a group from Martin Luther King Jr s staff arrived in Chicago eager to apply his nonviolent approach to social change in a northern city Once there King s Southern Christian Leadership Conference SCLC joined the locally based Coordinating Council of Community Organizations CCCO to form the Chicago Freedom Movement The open housing demonstrations they organized eventually resulted in a controversial agreement with Mayor Richard J Daley and other city leaders the fallout of which has historically led some to conclude that the movement was largely ineffective In this important volume an eminent team of scholars and activists offer an alternative assessment of the Chicago Freedom Movement s impact on race relations and social justice both in the city and across the nation Building upon recent works the contributors reexamine the movement and illuminate its lasting contributions in order to challenge conventional perceptions that have underestimated its impressive legacy

The Found Generation Marilyn A. Levine, 2016-06-01 In contrast to the

Lost Generation of youth in the West who were disoriented and disillusioned by the First World War and its aftermath the Chinese youth born between 1895 and 1905 not only believed they had a duty to save their nation but pursued their goal through social and political experimentation The vigorous purpose and optimism of this Found Generation contrasted with the apathy and detachment of their Western counterparts who followed a different path in coming to terms with the new world of the twentieth century Just after the First World War sixteen hundred Chinese young men and women traveled to Europe most of them to France as members of the Work Study Movement Their goal was to study Western technology and culture and utilize this knowledge to achieve national salvation and they planned to finance their study at European schools by factory work While in Europe many of these students became politicized partly through their exposure to European political ideas such as Marxism and partly through the social network based on shared experience that transcended what would have separated them in China One important result of this political activity was the formation of the European Branches of the Chinese Communist ORganizations ECCO The Found Generation explores the origins development and significance of the ECCO highlights the differences between it and the Communist home organization and describes its impact on the Chinese Communist Party The founders of the ECCO shared values and goals with their compatriots in China but their experiences and opportunities in Europe molded them in different ways that can be traced in their later careers On their return to China many of the young activists including Zhou Enlai Deng Xiaoping Chen Yi Cai Hesen Li Lisan Zhu De Nie Rongzhen and Wang Ruofei quickly assumed powerful positions in Chinese politics and their influence is still felt today Levine s examination of the early experiences of this important cohort of Chinese leaders helps explain their adherence to the Leninist concept of Party discipline and their tenacious hold over central governmental power The Found Generation is a pioneering study based on original sources including interviews with several prominent participants in the Work Study Movement and the ECCO Chinese studies and memoirs and Chinese and French periodicals It provides otherwise unavailable information and analysis about the political leadership of modern China and by pointing out the differences between the Chinese radicals in Europe in China it furthers our understanding of the conflicts motivations and values of modern Chinese leaders

The Oxford Movement Stewart J. Brown, Peter B. Nockles, 2012-06-28 The Oxford Movement transformed the nineteenth century Church of England with a renewed conception of itself as a spiritual body Initiated in the early 1830s by members of the University of Oxford it was a response to threats to the established Church posed by British Dissenters Irish Catholics Whig and Radical politicians and the predominant evangelical ethos what Newman called the religion of the day The Tractarians believed they were not simply addressing difficulties within their national Church but recovering universal principles of the Christian faith To what extent were their beliefs and ideals communicated globally Was missionary activity the product of the movement s distinctive principles Did their understanding of the Church promote or inhibit closer relations among the churches of the global Anglican Communion This volume addresses these questions and more with a series of case
