autobiography is a complicated often fraught activity for both writer and reader We can find many recent examples of the way such writing calls into question the author s truthfulness or their authority to present as definitive their version of a particular event or portion of their lives Drawing upon a wide range of late twentieth and early twenty first century autobiographical writing *The Fiction of Autobiography* examines key aspects of autobiography from the interrelated perspectives of author reader critic and scholar to reconsider how we view this form of writing and its relationship to the way we understand and construct identity Maftei considers recent cases and texts such as Didion s *The Year of Magical Thinking* and Frey s *A Million Little Pieces* alongside older texts such as Proust s *In Search of Lost Time* Nabokov s *Invitation of a Memory* and Stein s *The Autobiography of Alice B Toklas* In part this is to emphasise that key issues reappear and arise over decades and

centuries and that texts distanced by time can speak to each other thoughtfully and poignantly

*A Place That Matters Yet* Sara Byala, 2024-05-31 *A Place That Matters Yet* unearths the little known story of Johannesburg's MuseumAfrica a South African history museum that embodies one of the most dynamic and fraught stories of colonialism and postcolonialism its life spanning the eras before during and after apartheid Sara Byala in examining this story sheds new light not only on racism and its institutionalization in South Africa but also on the problems facing any museum that is charged with navigating colonial history from a postcolonial perspective Drawing on thirty years of personal letters and public writings by museum founder John Gubbins Byala paints a picture of a uniquely progressive colonist focusing on his philosophical notion of three dimensional thinking which aimed to transcend binaries and thus quite explicitly racism Unfortunately Gubbins died within weeks of the museum's opening and his hopes would go unrealized as the museum fell in line with emergent apartheid politics Following the museum through this transformation and on to its 1994 reconfiguration as a post apartheid institution Byala showcases it as a rich and problematic archive of both material culture and the ideas that surround that culture arguing for its continued importance in the establishment of a unified South Africa
