Cognitive Load Theory and Foreign Language Listening Comprehension Dayu Jiang, 2024-08-24 This book presents an interdisciplinary approach to understanding the learning and listening skills of a foreign language from the perspectives of cognitive load theory and second language acquisition theories

It explores when and how foreign language listening skills could be curiously improved more effectively by reading than by listening. The results of randomized controlled experiments in the book demonstrate an expertise reversal effect which calls teachers to adjust instructional approaches to accommodate learners' expertise level. The book expands the existing language comprehension frameworks by including working memory load as a crucial factor in written or verbal information processing. It also develops cognitive load theory by applying it in a less well-structured subject area: foreign language learning. The book is of interest to postgraduate teachers and learners of a foreign language, instructional designers, educational policy makers, and academic researchers in the fields of learning sciences, curriculum and pedagogy, educational psychology, cognitive load theory, second language acquisition, and foreign language teaching and learning. Insights in Educational Psychology 2021 Douglas F. Kauffman, Claudio Longobardi, Jesus de la Fuente, 2023-09-12. This Research Topic is part of the Insights in Psychology series. We are now entering the third decade of the 21st Century and especially in the last years the achievements made by scientists have been exceptional, leading to major advancements in the fast-growing field of Psychology. Frontiers has organized a series of Research Topics to highlight the latest advancements in science in order to be at the forefront of science in different fields of research. This editorial initiative of particular relevance led by Douglas Kauffman, Specialty Chief Editor of the section Educational Psychology, is focused on new insights, novel developments, current challenges, latest discoveries, recent advances, and future perspectives in this field. Also, high-quality original research manuscripts on novel concepts, problems, and approaches are welcomed.

Applicable Approaches to Analyzing Texts in Academic Discourse Alireza Jalilifar, Alexanne Don, 2024-01-03. This book provides a comprehensive overview of approaches to problems of language learning aimed at graduate students and researchers interested in English for academic purposes. Its primary focus is the complexity and nuances of academic writing, such as phraseology, nominalization, thematicity, and phrasal complexity features. The book will clarify the issue of how language is used to communicate discipline-related content viewed through the lens of linguistics as one of the human sciences. Each chapter concludes with several tasks that enable users to substantiate what has been presented in that chapter. The book primarily addresses non-native speakers of English who are studying for master's and PhD qualifications through the medium of English; however, non-native researchers may also find some chapters of the book useful for their underlying focus on academic writing and publishing.
