or have delivered by the post office Suddenly everyone began writing and posting to family friends strangers and even enemies A barrier had been lifted barriers of time and formality perhaps A high percentage of those Boomers compared with other generations have gone on to write some kind of book or ebook So the Boomers are the first generation of working class writers and their parents were the first working class generation of readers The generations after the Boomers have never lived without the Internet and use it even more confidently than the Boomers used a pen This is why there have never been so many writers or typists in the history of mankind Writing skills are more important now than ever before because of the proliferation of writers and therefore readers Now is not the time to slack to lower standards In fact quite the opposite Hence this booklet *Trusts and Equity* Gary Watt,2014 Gary Watt provides detailed and conceptual analysis of the complex area of trusts and equity Emphasis on the modern commercial context and abundant cultural references ensure students find Watt s approach a stimulating and inspiring read Live Stock Journal ,1904
