focusing in particular on the lower ranks of society This eighteenth century notion of the classical self grew partly out of influential identity narratives developed in the seventeenth century by clerics on the European continent responding to influential critiques of the Irish as ignorant barbarians they published works demonstrating the value and antiquity of indigenous culture and made traditional annalistic claims about the antiquity of Irish and connections between Ireland and the biblical and classical world broadly known In the eighteenth century these and related ideas spread through Irish poetry which demonstrated the complex and continuing interaction of languages in the country a story of conflict but also of communication and amity The classical strain in the context of the non elite may seem like an unlikely phenomenon but the volume exposes the truth in the legend of the classical hedge schools which offered tuition in Latin and Greek to poor students for whom learning and claims to learning had particular meaning and power This volume surveys official data on schools and scholars together with literary and other narratives showing how the schools inherently transgressive because of the Penal Laws drove concerns about class and political loyalty and inspired seductive but contentious retrospectives It demonstrates that classical interests among those in the humbler walks of life ran in the same channels as interests in Irish literature and contemporary Irish poetry and demands a closer look at the phenomenon in its entirety *Recommendations of the Committee for Waterfront Structures Harbours and Waterways EAU 2012* HTG,2015-06-29 The EAU 2012 takes into account the new generation of standards which is shortly to be introduced into the building control system it consists of Eurocode 7 the associated national application documents and additional national regulations DIN 1054 2010 In certain cases partial safety factors are determined differently based on experience in practice This means that the safety standard of sea and port buildings remains in place the recommendations nevertheless satisfy the requirements for international recognition and application regarding the planning design specification tender procedure construction and monitoring as well as the handover of and cost accounting for port and waterway systems under uniform criteria **KVS PGT Book :**
