Basic Music Reference Alan Green, Michael J. Duffy, IV, 2012-11-01 Basic Music Reference is a quick start guide designed to introduce library employees to the basic tools and techniques involved in answering questions related to music. As in every specialist subject area music has its own terminology but unlike most it also has a multitude of formats on paper and other materials as well as special notation and frequent use of foreign languages in titles and texts. These features make it particularly difficult for library employees to answer users' questions and thus a guide such as this one is essential. Not all libraries with a music collection can afford to hire a music reference librarian. Even libraries with such a specialist rely on support staff and student employees to answer questions when the music librarian is not available. Whatever the scenario this volume will serve as a helpful training tool for library employees to learn about the basic music reference tools and to develop the techniques of greatest use when answering the most common types of music related questions.

Music for the Soul Lorraine Kneier, 2022-02-18 Informed listening demands knowledge, context, and meditative practice. Even in ideal circumstances imparting the musical knowledge required for engaged listening is a challenge not easily met. It is refreshing to encounter a well-reasoned and clearly written guide for all those who seek to experience, understand, and share a love for classical music through informed listening. Joan E. MacLeod, PhD, *Informed listening meets gentle introspection* in this invitation to dive deeply into selected works of some of the great masters of Western classical music. An overview of the Baroque, Classical, and Romantic periods is presented, followed by concise yet heartfelt biographies of Albinoni, Mozart, Beethoven, Mendelssohn, Chopin, Brahms, and Dvořák. The chosen works of each of these masters are the slow heartbeat movements of concertos and symphonies. A greater understanding of each of the works is cultivated through a detailed listening guide complete with musical notation, a diagram of the musical form, and personal reflection questions for the listener. This approachable and inspiring listening guide is both a perfect introduction to classical music for new listeners and a welcome companion for those looking to enhance their music appreciation and understanding of these great works of the masters.
