**Entrepreneurial Middle Class** Richard Scase, 1982 **Defendants in the Criminal Process (Routledge Revivals)** A. E. Bottoms, J. D. McClean, 2013-10-14 First published in 1976, this book examines the practical workings of the English criminal court system, focusing on the defendant's experiences of the system and the decisions he takes as he passes through it. Indeed, the defendant in a criminal case is in a unique position to experience the whole criminal process from the first approaches of the investigating policeman to conviction, sentence, and possible appeal. *Defendants in the Criminal Process* is based upon the close observation of criminal cases and on interviews with defendants. The authors raise several issues and questions to be addressed by those involved in the administration of justice, whether as court administrators, judges, magistrates, or lawyers. They also discuss issues of special importance for academics and others concerned with the explanation of the court process.

This volume, first published in 1987, highlights the trends developing over the closing decades of the twentieth century. Although business start-up requires financial and marketing skills, it also demands important psychological and sociological inputs. On the basis of detailed accounts of the relevant social processes, this volume describes the varied experiences of entrepreneurship as they are emerging among various groups in both Eastern and Western Europe, including the unemployed, women, ethnic minorities, and others. This book will be of interest to students of business studies and sociology. **Critical Perspectives on**

**Entrepreneurship** Caroline Essers, Pascal Dey, Deirdre Tedmanson, Karen Verduyn, 2017-02-17 Entrepreneurship is largely considered to be a positive force driving venture creation and economic growth. *Critical Perspectives on Entrepreneurship* questions the accepted norms and dominant assumptions of scholarship on the matter and reveals how they can actually obscure important questions of identity, ideology, and inequality. The book's distinguished authors and editors explore how entrepreneurship study can privilege certain forms of economic action whilst labelling other, more collective forms of organization and exchange as problematic. Demystifying the archetypal vision of the white male entrepreneur, this book gives voice to other entrepreneurial subjectivities and engages with the tensions, paradoxes, and ambiguities at the heart of the topic. This challenging collection seeks to further the momentum for alternate analyses of the field and to promote the growing voice of critical entrepreneurship studies. It is a useful tool for researchers, advanced students, and policy makers.
