The Theme of Promise in the Epistle to the Hebrews Daniel Stevens,2025-04-24 Daniel Stevens analyses the use of the language of divine commitment in the Epistle to the Hebrews arguing that the author distinguishes promise from the cultic language of covenant to sketch a unique mixture of continuity and discontinuity among the people of God across time Stevens stresses through an exegesis of relevant passages that rest is not the primary content of promise nor is it the primary lens through which the other instances of promise language should be understood suggesting instead that the promise is most closely associated with the benefits promised to Abraham and then mediated through the various subsequent covenants He further explores how the divine promise relates to both the Old and New Covenants arguing that Hebrews develops a view of salvation history in which covenants are founded upon promises and then bring those promises to fruition By demonstrating the ways in which this understanding of promise sheds light on the author s hermeneutic and on his method of achieving his hortatory purposes for the epistle Stevens concludes in a reassertion of the consistency of the author s thought regarding promise

Genuine Multiculturalism Cecil Foster,2013-12-01 While many modern societies are noted for their diversity the resulting challenge is to determine how citizens from different backgrounds and cultures can see themselves and each other as equals and be treated equally In *Genuine Multiculturalism* Cecil Foster shows that a society s

failure to bridge these differences is the tragedy of modern living and that pretending it is possible to mechanically develop fraternity and solidarity among diverse groups is akin to seeking out comedy. Arguing that genuine multiculturalism is the search for social justice by individuals who have been trapped by ascribed identities or newcomers who have been shut out of perceived ethnic homelands, Foster details how this process in essence is the story of the Americas. Reconceptualizing the terms of multiculturalism, he offers an intervention into Canada's claim that its definition and practice are based on recognizing equality of citizenship. Identifying genuine multiculturalism as an ongoing work in progress rather than a tightly defined policy position, Foster challenges readers to imagine a greater and more harmonious ideal. A necessary theoretical reconsideration of diversity within society, *Genuine Multiculturalism* refocuses the debate about ideals and practices in modern societies.
