**How Teaching Test Taking Strategies to Students with Special Needs Impacts Test Taking Confidence and Performance** Daniel Travis Boyd, 2009 The research question addressed in this project was in what ways does the teaching of test taking strategies to students with special needs impact their confidence and performance on standardized tests It documents a ten day window in which students were taught test preparation skills in order to improve their standardized testing scores The outcomes of the study were based on data collected from teacher journaling student surveys student interviews practice tests and teacher observations Results indicated that students showed improvement in reading areas on segments one and two and decrease in segment three In math students also showed increases on segments one and two with decreases on segment three

**Teaching Test-taking Skills** Thomas E. Scruggs, Margo A. Mastropieri, 1992 Test wise individuals often score higher than others of equal ability who do not use effective test taking skills They use their knowledge of specific test formats and testing situations to show what they know Test taking skills training teaches general concepts about test formats and other conditions of testing *Teaching Test Taking Skills* aims to improve the validity of the test It makes scores more accurately reflect what students really know by making sure that students lose points only because they do not know the information Teachers can focus on whether poor performance truly reflects students low levels of knowledge or merely poor skills in applying what they know to tests The authors have found that younger students low achieving students of all ages and students from lower socioeconomic or minority backgrounds benefit particularly from test taking skills training Gains of 10 15 percentile points or six months of

school achievement are common Some individual gains are much greater
