Outperforming the Markets using Relative Strength And Breadth analysis Prashant Shah,2021-09-27 Relative strength and breadth analysis are less explored methods in trading However a combination of these two tools can complement any price based trading system and help improve the overall profitability of the system Most traders focus on price based systems to decide how to trade But by using relative strength and breadth studies you will know what and when to trade and decide on allocation This book explains an entirely different way of looking at the markets You will also learn objective methods that will assist in achieving returns that is better than the broader market 63 Post Mortem Analysis on Nifty50 - Fy2023-24 Q2 Balachandran Viswaram,2023-09-28 The chapters below are the analysis of each day s price movement It is highly technical in nature and my reports are based on the charts Usually I start with the 5mts candle and call out any anomaly or unusual patterns Then I take up the 1hr chart to see if it fits into the broader trend The trading style I follow scans for the market direction and play along For example if the markets are falling I still prefer to short CALLS Agreed the premiums in CEs would have dropped once the index makes its move but I feel it is in sync with my risk profile Also I prefer to wait for the volatility to pick up before selling options On each expiry day I bring up the weekly analysis to comment on how that index behaved in the last week And on the last expiry of the month I bring up the monthly chart Nifty is discussed first followed by Banknifty On Tuesdays I bring up the FinNifty charts Since we have one or the other index expiring daily most of the trades are done to take advantage of that I guess the market participants are growing in huge numbers to play expiry a situation similar to gambling is happening Strongly advise to do your own research and deploy strategies that are inline with your risk management Stock Market Guide (India) Ashok Nahar,2024-09-01 Step into the dynamic world of the Indian stock market with Abcd Of Indian Stock Market a comprehensive guide designed for both novice and budding investors This book breaks down the complexities of stock trading into simple digestible concepts making it the perfect starting point for anyone eager to learn the fundamentals of investing Explore key topics such as the basics of shares market indices and sectors and gain insights into essential strategies like fundamental analysis technical analysis and even futures and options With clear explanations and practical advice this book demystifies the art of buying and selling shares helping you navigate market volatility with confidence Whether you re looking to grow your wealth or simply understand how the stock market operates Abcd Of Indian Stock Market offers a well rounded foundation to build your investment knowledge Packed with tips guidelines and real world examples this is more than just a book it s your personal guide to mastering the stock market in India Ashok Nahar **How To Make Money Trading With Charts** Ashwani Gujral,Prasanna Khemariya,2015-12-16 **Options Trading Made Simple: A Beginner's Crash Course in Options Trading** Indrazith Shantharaj,2025-06-10 Simple Strategies for Success in Options Trading With the rise of weekly options traders are shifting to options trading for its lower capital requirements and greater flexibility But how do you navigate this fast moving market with confidence In Options Trading Made Simple bestselling author and market expert Indrazith Shantharaj breaks down
