The Divine Object:

Object Worlds in Ancient Egypt Lynn Meskell, 2021-01-07 Egypt looms large in the Western imagination Whether it is our attraction to pharaonic art the pyramids or practices of mummification Egypt's unique understanding of materiality speaks to us across space and time Is it because the ancient Egyptians fetishized material objects that we find their culture captivating today And what exactly do Egyptian remains tell us about biography embodiment memory materiality and the self *Object Worlds in Ancient Egypt* takes New Kingdom Egypt 1539 1070 BC as its starting point and considers how excavated objects reveal the complex ways that ancient Egyptians experienced their material world From life to death the material world instantiated reflected and influenced social life and existence for ancient Egyptians Thus in Meskell's unique approach to the materiality and sensuousness of subjects and objects we uncover the philosophical spiritual and human meanings embedded in these cultural artefacts Meskell's book explores the fundamental existential questions that not only preoccupied ancient Egyptians but continue to fascinate people today What is the essence of persons and things How might we understand the situated experiences of material life the constitution of the object world and its shaping of human experience How might objects successfully mediate between worlds In the final analysis Meskell moves forward through time and examines the consumption and appreciation of these Egyptian material objects in the contemporary world Materiality is our physical engagement with the world our medium for inserting ourselves into the fabric of that world and our way of constituting and shaping culture in an embodied and external sense From that perspective it is very much the domain of anthropology and archaeology Drawing on a wide range of objects artefacts and artwork from Valley of the Kings through to Las Vegas Meskell provides an elegant analysis of the aesthetics of ancient Egyptian material culture **The Cultural Power of Personal Objects** Jared Kemling, 2021-12-01 *The Cultural Power of Personal Objects* seeks to understand the value and efficacy of objects places and times that take on cultural power and reverence to such a degree that they are treated whether metaphorically or actually as persons or as objects with personality they are living objects Featuring both historical and theoretical sections the volume details examples of this practice including the wampum of certain Native American tribes the tsukumogami of Japan the sacred keris knives of Java the personality of seagoing ships the ritual objects of Hinduism and Ancient Egypt and more The theoretical contributions aim to provide context for the existence and experience of personal objects drawing from a variety of disciplines Offering a variety of new philosophical perspectives on the theme while grounding the discussion in a historical context *The Cultural Power of Personal Objects* broadens and reinvigorates our understanding of cultural meaning and experience **Carefree Master in City** Xi NianXiaoMeng, 2020-07-03 How would a loli do it He had tricked her into hugging him on the bed How could he do that One flick two flick three flop How does the queen do it The wax whip and the shackles *Popular Hindi Cinema* Ronie Parciack, 2016-04-20 The popular Hindi film industry is the largest in India and the most conspicuous film industry in the non Western world This book analyses the

pivotal visual and narrative conventions employed in popular Hindi films through the combined prism of film studies and classical Indian philosophy and ritualism The book shows the films outside Western paradigms as visual manifestations and outcomes of the evolution of classical Hindu notions and esthetic forms These include notions associated with the Advaita Vedānta philosophical school and early Buddhist thought concepts and dynamism stemming from Hindu ritualism rasa esthetic theories as well as Brahmanic notions such as dharma religion law order and mokṣa liberation These are all highly abstract notions which the author defines as the unseen a cluster of diversified concepts denoting what subsists beyond the phenomenal what prevails beyond the empirical world of saṁsāra and stands out of this world alaukika while simultaneously being embodied and transformed within visual filmic imagery codes and semiotics that are teased out and analyzed A culturally sensitive reading of popular Hindi films the interpretations put forward are also applicable to the Western context They enable a fuller understanding of religious phenomena outside the primary religious field within the vernacular arenas of popular culture and mass communication The book is of interest to scholars in the fields of Indology modern Indian studies film media and cultural studies

A Heart of Wisdom Maurice Friedman, 2012-02-01 Drawing on almost half a century of immersion in the world's great religions coupled with an ever deepening understanding of the philosophy and phenomenology of religion the author takes a dialogical approach through which religious reality is not seen as external creed and form or as subjective inspiration but as the meeting in openness presentness immediacy and mutuality with ultimate reality Religion has to do with the wholeness of human life The absolute is found not just in the universal but in the particular and the unique When it promotes a dualism in which the spirit has no binding claim upon life and life falls apart into unhallowed fragments religion becomes the great enemy of humankind

A Psychological Perspective on Joy and Emotional Fulfillment Chris Meadows, 2013-11-26 Throughout the history of psychology there have been full investigations of discrete emotions particularly negative ones and a recent wealth of books on happiness but few exist on the emotion of joy This book takes a unique psychological approach to understanding this powerful emotion and provides a framework within which the study of human joy and other related positive fulfillment experiences can fit in a meaningful schema A key feature of this book is its development of an experiential phenomenology of joy This phenomenology is based on more than three hundred descriptions of joy experiences recounted by subjects in an empirical study executed by the author Types of joy experiences are examined such as excited vs serene joy anticipatory vs completed joy and affiliative vs individuated joy There is no comparable book or work that clarifies the relationship among major positive states with emotional components including satisfaction happiness and ecstasy

Transnatural Philosophy or Metaphysics, 1700 Christ Crucified in a Suffering World Nathan D. Hieb, 2013-09-01 What is the connection between Christian doctrine and concrete social action This question marks the often unarticulated divide between systematic theology and liberation theology each often emphasizing one primarily or formally over the other Examining the work of Karl Barth T F Torrance and Jon Sobrino here Nathan Hieb contests this bifurcation specifically around the nodal points of the crucifixion or the doctrine of atonement and the context of suffering This book is an innovative study that bridges the boundaries of method doctrine and praxis creating a strong theological and action oriented relationship between systematic and liberation theology

Excommunication Alexander R. Galloway, Eugene Thacker, McKenzie Wark, 2022-12-22 Always connect that is the imperative of today's media But what about those moments when media cease to function properly when messages go beyond the sender and receiver to become excluded from the world of communication itself those messages that state There will be no more messages In this book Alexander R Galloway Eugene Thacker and McKenzie Wark turn our usual understanding of media and mediation on its head by arguing that these moments reveal the ways the impossibility of communication is integral to communication itself instances they call excommunication In three linked essays Excommunication pursues this elusive topic by looking at mediation in the face of banishment exclusion and heresy and by contemplating the possibilities of communication with the great beyond First Galloway proposes an original theory of mediation based on classical literature and philosophy using Hermes Iris and the Furies to map out three of the most prevalent modes of mediation today mediation as exchange as illumination and as network Then Thacker goes boldly beyond Galloway's classification scheme by examining the concept of excommunication through the secret link between the modern horror genre and medieval mysticism Charting a trajectory of examples from H P Lovecraft to Meister Eckhart Thacker explores those instances when one communicates or connects with the inaccessible dubbing such modes of mediation haunted or weird to underscore their inaccessibility Finally Wark evokes the poetics of the infuriated swarm as a queer politics of heresy that deviates from both media theory and the traditional left He posits a critical theory that celebrates heresy and that is distinct from those that now venerate Saint Paul Reexamining commonplace definitions of media mediation and communication Excommunication offers a glimpse into the realm of the nonhuman to find a theory of mediation adequate to our present condition
